Safety data sheet

- · EINECS Number:
- RTECS Number:
- GB

## Safety data sheet according to 1907/2006/EC, Article 31

184800

BACHEM

Revision: 01.04.2011 Printing date: 07.07.2016

#### **PRODUCT** : **PyBOP** (Contd. of page 1) 04 First aid measures · General information: No special measures required. · After inhalation: Supply fresh air; consult doctor in case of complaints. After skin contact: Immediately wash with water and soap and rinse thoroughly. · After eye contact: Rinse opened eye for several minutes under running water. · After swallowing: Call a doctor immediately. Information for doctor: · Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 05 Firefighting measures · Suitable extinguishing agents: CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture No further relevant information available. Advice for firefighters Protective equipment: No special measures required. 06 Accidental release measures · Personal precautions, protective equipment and emergency procedures Not required. Environmental precautions: • No special measures required. Methods and material for containment and cleaning up: Pick up mechanically.

## 07 Handling and storage

- Handling:
- Precautions for safe handling Prevent formation of dust.
- Information about fire and explosion protection:
- No special measures required.
- Storage:
- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Store away from foodstuffs.
- Further information about storage conditions:
- Store in dry conditions.
- Recommended storage temperature:
- +5 +/- 3 °C
- Specific end use(s)
   No further relevant information available.

08 Exposure controls/personal	(Contd. of page 2)
<ul> <li>Ingredients with limit values that req Not required.</li> </ul>	uire monitoring at the workplace:
Additional information:	
The lists valid during the making were us	sed as basis.
<ul> <li>Personal protective equipment:</li> </ul>	
General protective and hygienic mea	
	o be adhered to when handling chemicals.
<ul> <li>Respiratory protection: In case of brief exposure or low pollution</li> </ul>	use respiratory filter device. In case of intensive or longer exposure use self-contained
respiratory protective device.	······································
Use suitable respiratory protective devic	e in case of insufficient ventilation.
Protection of hands:     The glove material has to be importantly	le and registrant to the product/ the substance/ the proparation
-	le and resistant to the product/ the substance/ the preparation. n to the glove material can be given for the product/ the preparation/ the chemical mixture.
-	leration of the penetration times, rates of diffusion and the degradation
Protective gloves	
Material of gloves     The selection of the suitable gloves does	a not only depend on the material, but also on further marks of quality and varios from
manufacturer to manufacturer.	s not only depend on the material, but also on further marks of quality and varies from
Penetration time of glove material	
The exact break through time has to be t	found out by the manufacturer of the protective gloves and has to be observed.
Eye protection:	
Safety glasses	
General Information	erties
General Information Appearance:	
General Information Appearance: Form:	Crystalline powder
9 Physical and chemical prope General Information Appearance: Form: Colour: Odour:	Crystalline powder White
General Information Appearance: Form: Colour:	Crystalline powder White Nearly odourless
General Information Appearance: Form: Colour: Odour:	Crystalline powder White Nearly odourless Not determined.

#### PRODUCT : PyBOP

### 10 Stability and reactivity

- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- Possibility of hazardous reactions No dangerous reactions known.
- Conditions to avoid
- No further relevant information available.
- Incompatible materials:
- No further relevant information available
- Dangerous decomposition products: No dangerous decomposition products known.

#### 11 Toxicological information

- Acute toxicity: No further relevant information available.
- Primary irritant effect:
- on the skin:
- No further relevant information available.
- on the eye:
- No further relevant information available. Sensitization:
- No sensitizing effects known.
- Additional toxicological information:
- The substance is not subject to classification according to the latest version of the EU lists.

#### 12 Ecological information

- Acquatic toxicity:
- No further relevant information available.
- Persistence and degradability
- No further relevant information available. • Behaviour in environmental systems:
- Bioaccumulative potential
- No further relevant information available.Mobility in soil
- No further relevant information available.
- Additional ecological information:
- General notes:
   Not known to be hazardous to water.
- Results of PBT and vPvB assessment
- PBT:
- FDI.
- Not applicable. vPvB:
- VEVD. Not applicable.
- Other adverse effects
- No further relevant information available.

#### 13 Disposal considerations

- · Waste treatment methods
- Waste disposal key: 18 02 06
- Uncleaned packaging:
- Recommendation:
  - Disposal must be made according to official regulations
