# **SECTION 2: HAZARDS IDENTIFICATION**

#### 2.1. Classification of the substance or mixture

#### CLP Classification - Regulation (EC) No 1272/2008

#### Physical hazards

Based on available data, the classification criteria are not met

#### Health hazards

Acute oral toxicity Acute dermal toxicity Skin Corrosion/Irritation Serious Eye Damage/Eye Irritation Specific target organ toxicity - (single exposure)

#### **Environmental hazards**

Based on available data, the classification criteria are not met

Category 4 (H302) Category 4 (H312) Category 2 (H315) Category 2 (H319) Category 3 (H335)

Full text of Hazard Statements: see section 16

### 2.2. Label elements

Signal Word

Warning

#### **Hazard Statements**

H335 - May cause respiratory irritation

H315 - Causes skin irritation

H319 - Causes serious eye irritation

H302 + H312 - Harmful if swallowed or in contact with skin

#### **Precautionary Statements**

P261 - Avoid breathing dust/fume/gas/mist/vapors/spray P302 + P352 - IF ON SKIN: Wash with plenty of soap and water P280 - Wear protective gloves/protective clothing/eye protection/face protection P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

#### 2.3. Other hazards

This product does not contain any known or suspected endocrine disruptors

### **SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS**

#### 3.1. Substances

| Component                  | CAS No   | EC No             | Weight % | CLP Classification - Regulation (EC) No<br>1272/2008            |
|----------------------------|----------|-------------------|----------|---|

|--|--|
|--|--|

#### REACH registration number

Full text of Hazard Statements: see section 16

### **SECTION 4: FIRST AID MEASURES**

#### 4.1. Description of first aid measures

| Eye Contact                        | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.                                  |
|------------------------------------|--|
| Skin Contact                       | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention.                     |
| Ingestion                          | Clean mouth with water. Get medical attention.   |
| Inhalation                         | Remove from exposure, lie down. Remove to fresh air. If not breathing, give artificial respiration. Get medical attention.                       |
| Self-Protection of the First Aider | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. |
| 4.2. Most important symptoms and   | effects, both acute and delayed_   |

No information available.

4.3. Indication of any immediate medical attention and special treatment needed

Notes to Physician

Treat symptomatically.

### **SECTION 5: FIREFIGHTING MEASURES**

#### 5.1. Extinguishing media

#### Suitable Extinguishing Media

Water spray. Carbon dioxide (CO 2). Dry chemical. Chemical foam.

Extinguishing media which must not be used for safety reasons No information available.

#### 5.2. Special hazards arising from the substance or mixture

Thermal decomposition can lead to release of irritating gases and vapors.

#### **Hazardous Combustion Products**

Carbon monoxide (CO), Carbon dioxide (CO<sub>2</sub>), Sulfur oxides.

#### 5.3. Advice for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can lead to release of irritating gases and vapors.

### **SECTION 6: ACCIDENTAL RELEASE MEASURES**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation.

#### 6.2. Environmental precautions

See Section 12 for additional Ecological Information.

#### 6.3. Methods and material for containment and cleaning up

Sweep up and shovel into suitable containers for disposal. Do not let this chemical enter the environment.

#### 6.4. Reference to other sections

Refer to protective measures listed in Sections 8 and 13.

### **SECTION 7: HANDLING AND STORAGE**

#### 7.1. Precautions for safe handling

Avoid contact with skin and eyes. Do not breathe dust. Do not ingest. If swallowed then seek immediate medical assistance.

#### **Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wash hands before breaks and after work.

#### 7.2. Conditions for safe storage, including any incompatibilities

Keep in a dry, cool and well-ventilated place. Keep container tightly closed.

| Technical Rules for Hazardous Substances (TRGS) 510<br>Storage Class (LGK) (Germany) | Storage Class/LGK 11  |
|--|---|
| Switzerland - Storage of hazardous substances  | Storage class - SC 11/13<br>https://www.kvu.ch/de/themen/stoffe-und-produkte<br>https://www.kvu.ch/fr/themes/substances-et-produits |

#### 7.3. Specific end use(s)

Use in laboratories

### **SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

https://www.kvu.ch/it/temi/sostanze-e-prodotti

#### 8.1. Control parameters

#### **Exposure limits**

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies

**Biological limit values** 

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies

#### **Monitoring methods**

BS EN 14042:2003 Title Identifier: Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents.

MDHS14/3 General methods for sampling and gravimetric analysis of respirable and inhalable dust

#### Derived No Effect Level (DNEL) / Derived Minimum Effect Level (DMEL)

No information available

#### Predicted No Effect Concentration (PNEC)

No information available.

#### 8.2. Exposure controls

#### **Engineering Measures**

Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

#### Personal protective equipment Eve Protection

Goggles (European standard - EN 166)

Protective gloves

| Hand Protection |
|-----------------|
|-----------------|

| Glove material | Breakthrough time | Glove thickness | EU standard | Glove comments        |
|----------------|-------------------|-----------------|-------------|-----------------------|
| Natural rubber | See manufacturers | -               | EN 374      | (minimum requirement) |
| Butyl rubber   | recommendations   |                 |             | , i ,                 |
| Nitrile rubber |                   |                 |             |                       |
| Neoprene       |                   |                 |             |                       |
| PVC            |                   |                 |             |                       |

Skin and body protection

Wear appropriate protective gloves and clothing to prevent skin exposure.

Inspect gloves before use. observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information) gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion. gloves with care avoiding skin contamination.

| Respiratory Protection     | No protective equipment is needed under normal use conditions.  |
|----------------------------|---|
| Large scale/emergency use  | Use a NIOSH/MSHA or European Standard EN 136 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced |
| Small scale/Laboratory use | Maintain adequate ventilation   |

Environmental exposure controls No information available.

# **SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

9.1. Information on basic physical and chemical properties

| Physical State   | Powder Solid   |                                   |

# **SECTION 10: STABILITY AND REACTIVITY**

| 10.1. Reactivity                                | None known, based on information available             |
|---|--|
| 10.2. Chemical stability                        | Stable under normal conditions.                        |
| 10.3. Possibility of hazardous react            | ions   |
| Hazardous Polymerization<br>Hazardous Reactions | No information available.<br>No information available. |
| 10.4. Conditions to avoid                       | Incompatible products.                                 |
| 10.5. Incompatible materials                    | Strong oxidizing agents. Strong bases. Strong acids.   |
|   |  |

### 10.6. Hazardous decomposition products

Thiophene-2-carboxylic acid

Carbon monoxide (CO). Carbon dioxide (CO<sub>2</sub>). Sulfur oxides.

### **SECTION 11: TOXICOLOGICAL INFORMATION**

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Thiophene-2-carboxylic acid

### Product Information

| (a) acute toxicity;<br>Oral<br>Dermal<br>Inhalation           | Category 4<br>Category 4<br>Based on available data, the o | classification criteria are not met |                   |
|---|--|-------------------------------------|-------------------|
| Component   | LD50 Oral  | LD50 Dermal                         | LC50 Inhalation   |
| 2-Thiophenecarboxylic acid                                    | 1500 mg/kg (Rat)   | 1400 mg/kg (Rabbit)                 | 1974 ppm/4h (Rat) |
| (b) skin corrosion/irritation;                                | Category 2   |                                     |                   |
| (c) serious eye damage/irritation;                            | Category 2   |                                     |                   |

| (e) germ cell mutagenicity;                                   | No data available  |                                     |                   |
| (f) carcinogenicity;  | No data available<br>There are no known carcinog           | enic chemicals in this product      |                   |
| (g) reproductive toxicity;                                    | No data available  |                                     |                   |
| (h) STOT-single exposure;                                     | Category 3   |                                     |                   |
| Results / Target organs                                       | Respiratory system.  |                                     |                   |
| (i) STOT-repeated exposure;<br>Target Organs                  | No data available<br>No information available.             |                                     |                   |
|   |  |                                     |                   |
| (j) aspiration hazard;  | Not applicable<br>Solid                                    |                                     |                   |
| Other Adverse Effects   | The toxicological properties h                             | ave not been fully investigated.    |                   |
| Symptoms / effects,both acute and delayed                     | No information available.                                  |                                     |                   |
|   |  |                                     |                   |

### 11.2. Information on other hazards

Endocrine Disrupting Properties

Assess endocrine disrupting properties for human health. This product does not contain any known or suspected endocrine disruptors.

# **SECTION 12: ECOLOGICAL INFORMATION**

12.1. Toxicity Ecotoxicity effects

Do not empty into drains.

| Thiophene-2-carboxylic acid   | Revision Date 04-Feb-2024  |
|---|--|
| Persistence   | Soluble in water, Persistence is unlikely, based on information available.   |
| 12.3. Bioaccumulative potential   | Bioaccumulation is unlikely  |
| <u>12.4. Mobility in soil</u>   | The product is water soluble, and may spread in water systems Will likely be mobile in the environment due to its water solubility. Highly mobile in soils |
| <u>12.5. Results of PBT and vPvB</u><br>assessment  | No data available for assessment.  |
| <u>12.6. Endocrine disrupting</u><br>properties<br>Endocrine Disruptor Information              | This product does not contain any known or suspected endocrine disruptors  |
| <u>12.7. Other adverse effects</u><br>Persistent Organic Pollutant<br>Ozone Depletion Potential | This product does not contain any known or suspected substance<br>This product does not contain any known or suspected substance                           |

# **SECTION 13: DISPOSAL CONSIDERATIONS**

#### 13.1. Waste treatment methods

| Waste from Residues/Unused<br>Products | Waste is classified as hazardous. Dispose of in accordance with the European Directives on waste and hazardous waste. Dispose of in accordance with local regulations.  |
|--|---|
| Contaminated Packaging                 | Dispose of this container to hazardous or special waste collection point.   |
| European Waste Catalogue (EWC)         | According to the European Waste Catalog, Waste Codes are not product specific, but application specific.  |
| Other Information                      | Waste codes should be assigned by the user based on the application for which the product was used. Do not empty into drains.   |
| Switzerland - Waste Ordinance          | Disposal should be in accordance with applicable regional, national and local laws and regulations. Ordinance on the Avoidance and the Disposal of Waste (Waste Ordinance, ADWO) SR 814.600<br>https://www.fedlex.admin.ch/eli/cc/2015/891/en |

## **SECTION 14: TRANSPORT INFORMATION**

IMDG/IMO

Not regulated

<u>14.1. UN number</u> 14.2. UN proper shipping name 14.3. Transport hazard class(es) 14.4. Packing group

| 2-Thiophenecarboxylic acid | 527-72-0 | Not applicable  | Not applicable   |  |  |

Regulation (EC) No 649/2012 of the European Parliament and of the Council of 4 July 2012 concerning the export and import of dangerous chemicals

Not applicable

#### Contains component(s) that meet a 'definition' of per & poly fluoroalkyl substance (PFAS)? Not applicable

Take note of Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work .

#### **National Regulations**

UK - Take note of Control of Substances Hazardous to Health Regulations (COSHH) 2002 and 2005 Amendment

Revision Date 04-Feb-2024

**WGK Classification** 

Water endangering class = 3 (self classification)

#### **Swiss Regulations**

Article 4 para. 4 of the Ordinance on the protection of young people in the workplace (SR 822.115) and Article 1 lit. f of the EAER regulation on hazardous work and young people (SR 822.115.2).

Take note on Article 13 Maternity Ordinance (SR 822.111.52) with regards expectant and nursing mothers.

#### 15.2. Chemical safety assessment

A Chemical Safety Assessment/Report (CSA/CSR) has not been conducted

### **SECTION 16: OTHER INFORMATION**

#### Full text of H-Statements referred to under sections 2 and 3

H302 - Harmful if swallowed

H312 - Harmful in contact with skin

H315 - Causes skin irritation

H319 - Causes serious eye irritation

H335 - May cause respiratory irritation

Suppliers safety data sheet, Chemadvisor - LOLI, Merck index, RTECS

#### **Training Advice**

Chemical hazard awareness training, incorporating labelling, Safety Data Sheets (SDS), Personal Protective Equipment (PPE) and hygiene.

Use of personal protective equipment, covering appropriate selection, compatibility, breakthrough thresholds, care, maintenance, fit and standards.

First aid for chemical exposure, including the use of eye wash and safety showers.

| Prepared By      | Health, Safety and Environmental Department        |
