# SAFETY DATA SHEET

#### 1. Identification

| Product identifier                           | Adenine   |  |
|--|---|--|
| Other means of identification                |   |  |
| Catalog number                               | 1012101   |  |
| CAS number                                   | 73-24-5   |  |
| Synonyms                                     | Vitamin B4  |  |
| Chemical name                                | 1H-Purin-6-amine  |  |
| Recommended use                              | Specified quality tests and a                                       | issay use only.  |
| Recommended restrictions                     | Not for use as a drug. Not for                                      | or administration to humans or animals.                                  |
| Manufacturer/Importer/Supplier/              | Distributor information   |  |
| Manufacturer                                 |   |  |
| Company name                                 | U. S. Pharmacopeia  |  |
| Address                                      | 12601 Twinbrook Parkway   |  |
|  | Rockville<br>MD   |  |
|  | 20852-1790  |  |
|  | United States   |  |
| Telephone                                    | <b>RS</b> Technical Services  | 301-816-8129   |

| E-mail                                       | RSTECH@usp.org  | 4 000 404 0000   |
| Emergency phone number                       | CHEMTREC within US &<br>Canada                                      | 1-800-424-9300   |
|  | CHEMTREC outside US &   | +1 703-527-3887  |
|  | Canada  |  |
| 2. Hazard(s) identification                  |   |  |
| Physical hazards                             | Not classified.   |  |
| Health hazards                               | Acute toxicity, oral  | Category 3   |
| Environmental hazards                        | Not classified.   |  |
| OSHA defined hazards                         | Not classified.   |  |
| Label elements                               |   |  |
|  | ~   |  |
|  |   |  |
|  | 2000  |  |
|  |   |  |
| Signal word                                  | Danger  |  |
| Hazard statement                             | Toxic if swallowed.   |  |
| Precautionary statement                      |   |  |
| Prevention                                   | Wash thoroughly after handling.                                     |  |
| Response                                     | If swallowed: Immediately call a poison center/doctor. Rinse mouth. |  |
| Storage                                      | Store locked up.  |  |
| Disposal                                     | Dispose of contents/contain   | er in accordance with local/regional/national/international regulations. |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.   |  |
| Supplemental information                     | None.   |  |
|  |   |  |

3. Composition/information on ingredients

#### Substance

| Chemical name  | Common name and synonyms   | CAS number  | %  |
|--|--|---|--|
| Adenine  | Vitamin B4   | 73-24-5   | 100  |
| 4. First-aid measures  |  |   |  |
| nhalation  | Move to fresh air. Call a physician if symptom   | ns develop or persist.  |  |
| Skin contact   | Rinse skin with water/shower. Get medical attention if irritation develops and persists.   |   |  |
| Eye contact  | Rinse with water. Get medical attention if irritation develops and persists.   |   |  |
| Ingestion  | Rinse mouth. Do not induce vomiting without advice from poison control center. Do not use mouth-to-mouth method if substance is ingested. If ingestion of a large amount does occur, call a poison control center immediately. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.   |   |  |
| Most important<br>symptoms/effects, acute and<br>delayed                     | None known.  |   |  |
| Indication of immediate<br>medical attention and special<br>treatment needed | Provide general supportive measures and tre  | eat symptomatically.  |  |
| General information  | Remove from exposure. Remove contaminated clothing. For treatment advice, seek guidance from an occupational health physician or other licensed health-care provider familiar with workplace chemical exposures. In the United States, the national poison control center phone number is 1-800-222-1222. If person is not breathing, give artificial respiration. If breathing is difficult, give oxygen if available. Persons developing serious hypersensitivity (anaphylactic) reactions must receive immediate medical attention. |   |  |
| 5. Fire-fighting measures  |  |   |  |
| Suitable extinguishing media   | Water. Foam. Dry chemical or CO2. Use fire-<br>materials.  | extinguishing media appropriate   | for surrounding                              |
| Unsuitable extinguishing<br>media  | None known.  |   |  |
| Specific hazards arising from the chemical                                   | No unusual fire or explosion hazards noted.  |   |  |
| Special protective equipment<br>and precautions for firefighters             | Wear suitable protective equipment.  |   |  |
| Fire fighting<br>equipment/instructions                                      | Use water spray to cool unopened containers<br>Firefighters should use self-contained breath   |   |  |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials.   |   |  |
| General fire hazards   | No unusual fire or explosion hazards noted.  |   |  |
| 6. Accidental release meas   | sures  |   |  |
| Personal precautions,<br>protective equipment and<br>emergency procedures    | Keep unnecessary personnel away. Wear ap<br>inhalation of dust from the spilled material. Do<br>unless wearing appropriate protective clothin<br>protection, see section 8 of the SDS.   | o not touch damaged containers  | or spilled material                          |
| Methods and materials for<br>containment and cleaning up                     | For waste disposal, see section 13 of the SD<br>Sweep up or vacuum up spillage and collect<br>thoroughly to remove residual contamination.   | in suitable container for disposal  |  |
| Environmental precautions  | Avoid discharge into drains, water courses or  | onto the ground.  |  |
| 7. Handling and storage  |  |   |  |
| Precautions for safe handling  | As a general rule, when handling USP Refere<br>dust, mists, and/or vapors associated with the<br>suitable detergent or solvent after use. After i<br>thoroughly. Select and use containment devic<br>risk assessment of material potency and expo  | e material. Clean equipment and<br>removing gloves, wash hands ar<br>ces and personal protective equi | l work surfaces with<br>nd other exposed ski |
| Conditions for safe storage, including any incompatibilities                 | Store in tight container as defined in the USP label instructions to ensure product integrity.   | P-NF. This material should be ha  | ndled and stored per                         |
| 8. Exposure controls/perse   | onal protection  |   |  |
| Occupational exposure limits   | No exposure limits noted for ingredient(s).  |   |  |
|  | No biological supersum limits a stad for the in-   |   |  |

## Biological limit values No biological exposure limits noted for the ingredient(s).

| Appropriate engineering controls  | For laboratory operations, use good technique and limit open handling. Control exposures to below the occupational exposure level (if available). Select and use containment devices and personal protective equipment based on a risk assessment of exposure potential. Cover all containers for solutions and slurries while being transferred. |
|-----------------------------------|---|
| Individual protection measures,   | such as personal protective equipment   |
| Eye/face protection               | Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary.<br>Base the choice of protection on the job activity and potential for contact with eyes or face. An<br>emergency eye wash station should be available.  |
| Skin protection                   |   |
| Hand protection                   | Wear nitrile or other impervious gloves if skin contact is possible. When the material is dissolved or suspended in an organic solvent, wear gloves that provide protection against the solvent.  |
| Other                             | Wear lab coat. Base the choice of skin protection on the job activity, potential for skin contact and solvents and reagents in use. Do not wear protective garments in common areas (e.g., cafeterias) or out-of-doors.   |
| Respiratory protection            | Respirators are generally not required for laboratory operations. Choose respiratory protection appropriate to the task and the level of existing engineering controls.   |
| Thermal hazards                   | Wear appropriate thermal protective clothing, when necessary.   |
| General hygiene<br>considerations | Handle in accordance with good industrial hygiene and safety practice. Handling practices in this SDS are recommendations for laboratory use of reference standards. Procedures for any other uses or quantities should be determined after an appropriate assessment.  |

## 9. Physical and chemical properties

| Appearance                                 | Appearance descriptions are general information and not specific to any USP lot. |
|--|--|
| Physical state                             | Solid.   |
| Form                                       | Powder.  |
| Color                                      | Not available.   |
| Odor                                       | Odorless.  |
| Odor threshold                             | Not available.   |
| рН   | Not available.   |
| Melting point/freezing point               | 678.2 - 689 °F (359 - 365 °C) (decomposes)                                       |
| Initial boiling point and boiling range    | Not available.   |
| Flash point                                | Not available.   |
| Evaporation rate                           | Not available.   |
| Flammability (solid, gas)                  | Not available.   |
| Upper/lower flammability or exp            | losive limits  |
| Flammability limit - lower<br>(%)          | Not available.   |
| Flammability limit - upper<br>(%)          | Not available.   |
| Explosive limit - lower (%)                | Not available.   |
| Explosive limit - upper (%)                | Not available.   |
| Vapor pressure                             | < 0.0000001 kPa at 25 °C   |
| Vapor density                              | Not available.   |
| Relative density                           | Not available.   |
| Solubility(ies)                            |  |
| Solubility (water)                         | Boiling water: Soluble.  |
| Solubility (other)                         | Dimethylsulfoxide: Slightly soluble.<br>Methanol: Slightly soluble.              |
| Partition coefficient<br>(n-octanol/water) | -0.09  |
| Auto-ignition temperature                  | Not available.   |
| Decomposition temperature                  | Not available.   |
| Viscosity                                  | Not available.   |
|  |  |

| Other information |         |
|-------------------|---------|
| Chemical family   | Purine. |
| Molecular formula | C5H5N5  |
| Molecular weight  | 135.13  |

#### 10. Stability and reactivity

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport. |
|---------------------------------------|---|
| Chemical stability                    | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions | No dangerous reaction known under conditions of normal use.                                   |
| Conditions to avoid                   | Contact with incompatible materials.  |
| Incompatible materials                | Strong oxidizing agents. Strong reducing agents.  |
| Hazardous decomposition<br>products   | NOx. Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions.         |

#### 11. Toxicological information

#### Information on likely routes of exposure

| Inhalation   | Knowledge about health hazard is incomplete. |
|--|--|
| Skin contact   | Knowledge about health hazard is incomplete. |
| Eye contact  | Knowledge about health hazard is incomplete. |
| Ingestion  | Toxic if swallowed.                          |
| Symptoms related to the<br>physical, chemical, and<br>toxicological<br>characteristics | Not available.                               |

#### Information on toxicological effects

| Acute toxicity                                | Toxic if swallowed.  |              |
|---|--|--------------|
| Product                                       | Species  | Test Results |
| Adenine (CAS 73-24-5)                         |  |              |
| Oral  |  |              |
| LD50  | Mouse  | 783 mg/kg    |
|   | Rat  | 227 mg/kg    |
| Skin corrosion/irritation                     | Knowledge about health hazard is incomplete.   |              |
| Serious eye damage/eye<br>irritation          | Knowledge about health hazard is incomplete.   |              |
| Respiratory or skin sensitizatio              | n  |              |
| <b>Respiratory sensitization</b>              | Knowledge about health hazard is incomplete.   |              |
| Skin sensitization                            | Knowledge about health hazard is incomplete.   |              |
| Germ cell mutagenicity                        | Knowledge about mutagenicity is incomplete.  |              |
| Carcinogenicity                               | Knowledge about carcinogenicity is incomplete.                                       |              |
| IARC Monographs. Overall                      | Evaluation of Carcinogenicity  |              |
| Not listed.                                   |  |              |
| OSHA Specifically Regulate                    | ed Substances (29 CFR 1910.1001-1052)  |              |
| Not regulated.<br>US. National Toxicology Pro | ogram (NTP) Report on Carcinogens  |              |
| Not listed.                                   |  |              |
| Reproductive toxicity                         | Knowledge about health hazard is incomplete.   |              |
|   | ctivity<br>cleft palate, digital defects, and<br>tomas when administered on the 12th |              |

| Specific target organ toxicity -<br>single exposure  | Knowledge about health hazard is incomplete.   |  |
|--|--|--|
| Specific target organ toxicity - repeated exposure   | Knowledge about health hazard is incomplete.   |  |
| Aspiration hazard                                    | Based on available data, the classification criteria are not met.  |  |
| 12. Ecological information                           |  |  |
| Ecotoxicity  | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. |  |
| Persistence and degradability                        | No data is available on the degradability of this product.   |  |
| Bioaccumulative potential                            |  |  |
| Octanol/water partition coefficient log Kow<br>-0.09 |  |  |
| Mobility in soil                                     | No data available.   |  |
| Other adverse effects                                | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.            |  |
| 13. Disposal considerations                          |  |  |

| Disposal instructions                    | Dispose in accordance with all applicable regulations. Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste. |
|--|--|
| Local disposal regulations               | Dispose in accordance with all applicable regulations.   |
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| Waste from residues / unused<br>products | Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).  |
| Contaminated packaging                   | Since emptied containers may retain product residue, follow label warnings even after container is emptied.  |

### 14. Transport information

| DOT  |                                    |
|--|------------------------------------|
| UN number  | UN1544                             |
| UN proper shipping name  | Alkaloids, solid, n.o.s. (Adenine) |
| Transport hazard class(es)   |                                    |
| Class  | 6.1                                |
| Subsidiary risk  | -                                  |
| Packing group  | III                                |
| Packaging exceptions   | 153                                |
| Packaging non bulk   | 213                                |
| Packaging bulk   | 240                                |
| ΙΑΤΑ   |                                    |
| UN number  | UN1544                             |
| UN proper shipping name  | Alkaloids, solid, n.o.s. (Adenine) |
| Transport hazard class(es)   |                                    |
| Class  | 6.1                                |
| Subsidiary risk  | -                                  |
| Packing group  | III                                |
| Other information  |                                    |
| Passenger and cargo<br>aircraft  | Allowed with restrictions.         |
| Cargo aircraft only  | Allowed with restrictions.         |
| Transport in bulk according to<br>Annex II of MARPOL 73/78 and<br>the IBC Code | Not applicable.                    |

It is the shipper's responsibility to determine the correct transport classification at the time of shipment.

## 15. Regulatory information

| US federal regulations                        | This product is a "Hazardous Chemical" as defined by the OSHA Ha Standard, 29 CFR 1910.1200.   | zard Communication     |
|---|--|------------------------|
| TSCA Section 12(b) Export                     | Notification (40 CFR 707, Subpt. D)  |                        |
| Not regulated.                                |  |                        |
| CERCLA Hazardous Substa                       | ance List (40 CFR 302.4)   |                        |
