2. Hazard(s) identification		
Physical hazards Not classified.		
Health hazards Acute toxicity, oral Categor	v 3	
Acute toxicity, inhalation Categor	y 3	
Carcinogenicity Categor	y 2	
Reproductive toxicity Categor	-	
Specific target organ toxicity, repeated Categor exposure	y 1 (endocrine system)	
Environmental hazards Not classified.		
OSHA defined hazards Not classified.		
Label elements		
Signal word Danger		
Hazard statement Toxic if swallowed. Toxic if inhaled. Suspected of causir unborn child. Causes damage to organs (endocrine systexposure.		
Precautionary statement		
PreventionObtain special instructions before use. Do not handle ur and understood. Do not breathe dust/fume/gas/mist/vap well-ventilated area. Wear protective gloves/protective or Wash thoroughly after handling.	oors/spray. Use only outdoors or in a	
fresh air and keep comfortable for breathing. If exposed	If swallowed: Immediately call a poison center/doctor. Rinse mouth. If inhaled: Remove person to fresh air and keep comfortable for breathing. If exposed or concerned: Get medical advice/attention. Call a poison center/doctor if you feel unwell.	
Storage Store in a well-ventilated place. Keep container tightly cl	losed. Store locked up.	
Dispose of contents/container in accordance with local/r	regional/national/international regulations.	
Hazard(s) not otherwise     None known.       classified (HNOC)     None known.		

Material name: Anastrozole

Potent pharmacologically active material.

### 3. Composition/information on ingredients

hemical name	Common name and synonyms	CAS number	%
Anastrozole		120511-73-1	100
. First-aid measures			
halation	Move to fresh air. Call a physician if symptoms	s develop or persist.	
kin contact	Rinse skin with water/shower. Get medical attention if irritation develops and persists.		d persists.
ye contact	Rinse with water. Get medical attention if irritation develops and persists.		
ngestion	Rinse mouth. If ingestion of a large amount does occur, call a poison control center immediately.		
lost important ymptoms/effects, acute and elayed	Endocrine system effects. Potent pharmacologically active material Occupational exposure to small amounts may cause physiological effects.		
ndication of immediate nedical attention and special reatment needed	Provide general supportive measures and treat symptomatically.		
eneral information	Remove from exposure. Remove contaminated clothing. For treatment advice, seek guidance from an occupational health physician or other licensed health-care provider familiar with workplace chemical exposures. In the United States, the national poison control center phone number is 1-800-222-1222. If person is not breathing, give artificial respiration. If breathing is difficult, give oxygen if available. Persons developing serious hypersensitivity (anaphylactic) reactions must receive immediate medical attention.		
. Fire-fighting measures			
uitable extinguishing media	Water. Foam. Dry chemical or CO2. Use fire-extinguishing media appropriate for surrounding materials.		ate for surrounding
nsuitable extinguishing nedia	None known.		
pecific hazards arising from ne chemical	No unusual fire or explosion hazards noted.		
pecial protective equipment nd precautions for firefighters	Wear suitable protective equipment.		
ire fighting quipment/instructions	Use water spray to cool unopened containers. As with all fires, evacuate personnel to a safe area Firefighters should use self-contained breathing equipment and protective clothing.		
pecific methods	Use standard firefighting procedures and consider the hazards of other involved materials.		
eneral fire hazards	No unusual fire or explosion hazards noted.		
. Accidental release meas	sures		
ersonal precautions, rotective equipment and mergency procedures	Keep unnecessary personnel away. Wear appropriate personal protective equipment inhalation of dust from the spilled material. Do not touch damaged containers or spille unless wearing appropriate protective clothing. Ensure adequate ventilation. For pers protection, see section 8 of the SDS.		rs or spilled material
lethods and materials for ontainment and cleaning up	For waste disposal, see section 13 of the SDS. Avoid the generation of dusts during clean-up Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination.		
nvironmental precautions	Avoid discharge into drains, water courses or	onto the ground.	
. Handling and storage			
recautions for safe handling	As a general rule, when handling USP Reference Standards, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material. Clean equipment and work surfaces wit suitable detergent or solvent after use. After removing gloves, wash hands and other exposed s thoroughly. Select and use containment devices and personal protective equipment based on a risk assessment of material potency and exposure potential.		nd work surfaces with and other exposed ski
onditions for safe storage, ncluding any incompatibilities	Store in tight container as defined in the USP- label instructions to ensure product integrity.	•	nandled and stored per

# Occupational exposure limitsNo exposure limits noted for ingredient(s).Biological limit valuesNo biological exposure limits noted for the ingredient(s).

Appropriate engineering controls	No open handling. For laboratory operations, use approved ventilation or containment system (biological safety cabinet, ventilated balance enclosure, glovebox). Control exposures to below the occupational exposure level (if available). Select and use containment devices and personal protective equipment based on a risk assessment of exposure potential. Cover all containers for solutions and slurries while being transferred.
Individual protection measures,	such as personal protective equipment
Eye/face protection	Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.
Skin protection	
Hand protection	Consider double gloves. Wear nitrile or other impervious gloves if skin contact is possible. When the material is dissolved or suspended in an organic solvent, wear gloves that provide protection against the solvent.
Other	Train employees in proper gowning and degowning practices. Wear disposable lab coat, disposable sleeve covers and two pair of gloves as appropriate for the task. Base the choice of skin protection on the job activity, potential for skin contact and solvents and reagents in use. Do not wear protective garments in common areas (e.g., cafeterias) or out-of-doors.
Respiratory protection	Use a powered air-purifying respirator (PAPR) with HEPA filters, disposable outerware and head cover for spill cleanup. Chose respiratory protection appropriate to the task and the level of existing engineering controls.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Pharmacological effects may be seen with occupational exposure. Handling practices in this SDS are recommendations for laboratory use of reference standards. Procedures for any other uses or quantities should be determined after an appropriate assessment.

## 9. Physical and chemical properties

Appearance	Appearance descriptions are general information and not specific to any USP lot.
Physical state	Solid.
Form	Powder.
Color	Off-white.
Odor	Not available.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	177.8 - 188.6 °F (81 - 87 °C)
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Soluble.
Solubility (other)	Acetonitrile: Very soluble. Tetrahydrofuran: Freely soluble. Ethanol: Freely soluble. Acetone: Freely soluble. Methanol: Freely soluble.
Partition coefficient (n-octanol/water)	1.56
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.

Viscosity	Not available.
Other information	
Molecular formula	C17H19N5
Molecular weight	293.37

#### 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	None known.
Hazardous decomposition products	Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions. NOx.

#### 11. Toxicological information

#### Information on likely routes of exposure

Inhalation	Toxic if inhaled.
Skin contact	Knowledge about health hazard is incomplete.
Eye contact	Knowledge about health hazard is incomplete.
Ingestion	Toxic if swallowed. Based on information from therapeutic use, this material may cause: Endocrine effects.
Symptoms related to the physical, chemical, and toxicological characteristics	Back pain. Swelling of extremities. Weakness. Dizziness. Headache. Gastrointestinal disturbances. Chills. Sore throat. Chest pain. Behavior, mood, or mental changes. Insomnia. Flushing.

#### Information on toxicological effects

Acute toxicity	Toxic if inhaled. Toxic if swallowed.
Skin corrosion/irritation	Knowledge about health hazard is incomplete.
Serious eye damage/eye irritation	Knowledge about health hazard is incomplete.

#### Respiratory or skin sensitization

Respiratory sensitization	Knowledge about health hazard is incomplete.
Skin sensitization	Knowledge about health hazard is incomplete.
Germ cell mutagenicity	Knowledge about mutagenicity is incomplete.

#### Mutagenicity

Ames test
Result: Negative.
Chromosome aberration: human lymphocytes
Result: Negative.
In vitro gene mutation study in bacteria
Result: Negative.
Micronucleus test
Result: Negative.
Species: Rat

#### Carcinogenicity

Suspected of causing cancer.

```
1 - 25 mg/kg/day Oral feed study
Result: Increased incidence of hepatocellular adenomas and
carcinomas.
Species: Rat
Test Duration: 2 years
```

#### IARC Monographs. Overall Evaluation of Carcinogenicity

#### Not listed.

## OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

#### Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens Not listed.

#### **Reproductive toxicity**

May damage fertility or the unborn child.

#### Reproductivity

1 mg/kg/day Developmental Result: Delayed fetal development. Species: Rat

Species: Rat 2 mg/kg/day Reprodu	l incidence of birth defects. uctivity l incidence of birth defects. reproductivity
Specific target organ toxicity - single exposure	Knowledge about health hazard is incomplete.
Specific target organ toxicity - repeated exposure	Causes damage to organs (endocrine system) through prolonged or repeated exposure.
Aspiration hazard	Based on available data, the classification criteria are not met.
Further information	Potent pharmacologically active material. Occupational exposure to small amounts may cause physiological effects.
12. Ecological information	
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data is available on the degradability of this product.

Bioaccumulative potential

Octanol/water partition coet 1.56	fficient log Kow
Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

## 13. Disposal considerations

Disposal instructions	Dispose in accordance with all applicable regulations. Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

## 14. Transport information

DOT	
UN number	UN2811
UN proper shipping name	Toxic solid, organic, n.o.s. (Anastrozole)
Transport hazard class(es)	
Class	6.1
Subsidiary risk	-
Packing group	III
ΙΑΤΑ	
UN number	UN2811
UN proper shipping name	Toxic solid, organic, n.o.s. (Anastrozole)
Transport hazard class(es)	
Class	6.1
Subsidiary risk	-
Packing group	III
Other information	
Passenger and cargo aircraft	Allowed with restrictions.
Cargo aircraft only	Allowed with restrictions.
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable.

It is the shipper's responsibility to determine the correct transport classification at the time of shipment.

#### 15. Regulatory information

US federal	regulations
------------	-------------

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

## TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

Hazard categories

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)

Immediate Hazard - Yes Delayed Hazard - Yes Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No

## SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous chemical

SARA 313 (TRI reporting) Not regulated.

#### Other federal regulations

#### Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Yes

Not regulated.

#### Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act Not regulated. (SDWA)

California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.

#### International Inventories

**US state regulations** 

Country(s) or region	Inventory name	On inventory (yes/no)*
Australia	Australian Inventory of Chemical Substances (AICS)	No
Canada	Domestic Substances List (DSL)	No
Canada	Non-Domestic Substances List (NDSL)	No
China	Inventory of Existing Chemical Substances in China (IECSC)	No
Europe	European Inventory of Existing Commercial Chemical Substances (EINECS)	No
Europe	European List of Notified Chemical Substances (ELINCS)	No
Japan	Inventory of Existing and New Chemical Substances (ENCS)	No
Korea	Existing Chemicals List (ECL)	No
New Zealand	New Zealand Inventory	Yes
Philippines	Philippine Inventory of Chemicals and Chemical Substances (PICCS)	No

United States & Puerto Rico Toxic Substances Control Act (TSCA) Inventory

\*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s) A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).
