## SAFETY DATA SHEET

## 1. Identification

in identification				
Product identifier	Betamethasone Dipropionate			
Other means of identification				
Catalog number	1067704			
CAS number	5593-20-4			
Synonyms	Betamethasone 17,21-dipro			
Chemical name	9-Fluoro-11beta,17,21-trihyd	droxy-16beta-meth	nylpregna-1,4-diene-3,20-dione 17,21-diprop	pionate
Recommended use	Specified quality tests and a	ssay use only.		
Recommended restrictions	Not for use as a drug. Not for	or administration to	humans or animals.	
Manufacturer/Importer/Supplier/	Distributor information			
Manufacturer				
Company name Address	U. S. Pharmacopeia 12601 Twinbrook Parkway Rockville MD 20852-1790 United States			
Telephone	RS Technical Services	301-816-8129		
Website	www.usp.org			
E-mail	RSTECH@usp.org			
Emergency phone number	CHEMTREC within US & Canada	1-800-424-9300		
	CHEMTREC outside US & Canada	+1 703-527-388	7	
2. Hazard(s) identification				
Physical hazards	Not classified.			
Health hazards	Skin corrosion/irritation		Category 2	
	Serious eye damage/eye irri	tation	Category 2B	
	Reproductive toxicity		Category 2	
	Specific target organ toxicity exposure	, repeated	Category 1 (endocrine system)	
Environmental hazards	Not classified.			
OSHA defined hazards	Not classified.			
Label elements				
Signal word	Danger			
Hazard statement			uspected of damaging fertility or the unborn ) through prolonged or repeated exposure.	child.
Precautionary statement				
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.			
Response	If on skin: Wash with plenty of water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. If exposed or concerned: Get medical advice/attention.			
Material name: Betamethasone Dipro	pionate			USP SDS U

Storage	Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	Potent pharmacologically active material.

## 3. Composition/information on ingredients

Substance

Substance			
Chemical name	Common name and synonyms	CAS number	%
Betamethasone Dipropionate	Betamethasone 17,21-dipropionate	5593-20-4	100
4. First-aid measures			
Inhalation	If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist.		
Skin contact	Remove contaminated clothing. Rinse skin with water/shower. Get medical attention if irritation develops and persists.		
Eye contact	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.		
Ingestion	Rinse mouth. If ingestion of a large amount do	es occur, call a poison contr	ol center immediately.
Most important symptoms/effects, acute and delayed	Endocrine system effects. Potent pharmacologically active material. Occupational exposure to small amounts may cause physiological effects.		
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Treatment of corticosteroid overdose may include the following: Toxicity is low after acute ingestion. Gastrointestinal decontamination is generally not necessary.		
General information	Remove from exposure. Remove contaminated clothing. For treatment advice, seek guidance fro an occupational health physician or other licensed health-care provider familiar with workplace chemical exposures. In the United States, the national poison control center phone number is 1-800-222-1222. If person is not breathing, give artificial respiration. If breathing is difficult, give oxygen if available. Persons developing serious hypersensitivity (anaphylactic) reactions must receive immediate medical attention.		
5. Fire-fighting measures			
Suitable extinguishing media	Water. Foam. Dry chemical or CO2. Use fire-extinguishing media appropriate for surrounding materials.		ate for surrounding
Unsuitable extinguishing media	None known.		
Specific hazards arising from the chemical	No unusual fire or explosion hazards noted.		
Special protective equipment and precautions for firefighters	Wear suitable protective equipment.		
Fire fighting equipment/instructions	Use water spray to cool unopened containers. Firefighters should use self-contained breathing		
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.		
General fire hazards	No unusual fire or explosion hazards noted.		
6. Accidental release meas	sures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Wear apprince inhalation of dust from the spilled material. Do unless wearing appropriate protective clothing. protection, see section 8 of the SDS.	not touch damaged containe	ers or spilled material

Methods and materials for containment and cleaning up Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination.

**Environmental precautions** Avoid discharge into drains, water courses or onto the ground.

## 7. Handling and storage

Precautions for safe handling

As a general rule, when handling USP Reference Standards, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material. Clean equipment and work surfaces with suitable detergent or solvent after use. After removing gloves, wash hands and other exposed skin thoroughly. Select and use containment devices and personal protective equipment based on a risk assessment of material potency and exposure potential.

Conditions for safe storage, including any incompatibilities

Store in tight container as defined in the USP-NF. This material should be handled and stored per label instructions to ensure product integrity.

#### 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

#### **Exposure limit values**

Industrial Use Material	Туре	Value	
Betamethasone Dipropiona te (CAS 5593-20-4)	TWA	1 micrograms/m3	
Biological limit values	No biological exposure limits noted for the ingredient(s).		
Appropriate engineering controls	No open handling. For laboratory operations, use approved ventilation or containment system (biological safety cabinet, ventilated balance enclosure, glovebox). Control exposures to below the occupational exposure level (if available). Select and use containment devices and personal protective equipment based on a risk assessment of exposure potential. Cover all containers for solutions and slurries while being transferred.		
Individual protection measures,	, such as personal protective equip	nent	
Eye/face protection	Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.		
Skin protection			
Hand protection	Consider double gloves. Wear nitrile or other impervious gloves if skin contact is possible. When the material is dissolved or suspended in an organic solvent, wear gloves that provide protection against the solvent.		
Other	disposable sleeve covers and two p skin protection on the job activity, p	nployees in proper gowning and degowning practices. Wear disposable lab coat, ble sleeve covers and two pair of gloves as appropriate for the task. Base the choice of tection on the job activity, potential for skin contact and solvents and reagents in use. Do r protective garments in common areas (e.g., cafeterias) or out-of-doors.	
Respiratory protection		or (PAPR) with HEPA filters, disposable outerware and head ratory protection appropriate to the task and the level of	
Thermal hazards	Wear appropriate thermal protective	e clothing, when necessary.	
General hygiene considerations		en with occupational exposure. Handling practices in this SDS use of reference standards. Procedures for any other uses or er an appropriate assessment.	

#### 9. Physical and chemical properties

Appearance	Appearance descriptions are general information and not specific to any USP lot.
Physical state	Solid.
Form	Powder.
Color	White. Light cream.
Odor	Odorless.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	338 - 354.2 °F (170 - 179 °C) (decomposes)
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.

#### Upper/lower flammability or explosive limits

oppernower naminability of exp	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	< 0.0000001 kPa at 25 °C
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Insoluble.
Solubility (other)	Methanol: Sparingly soluble. Ethanol: Sparingly soluble. Chloroform: Freely soluble. Acetone: Freely soluble.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Chemical family	Corticosteroid.
Molecular formula	C28H37FO7
Molecular weight	504.59

## 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Acids. Oxidizing agents. Reducing agents. Strong bases.
Hazardous decomposition products	Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions. HF.

## 11. Toxicological information

#### Information on likely routes of exposure

Inhalation	Knowledge about health hazard is incomplete.
Skin contact	Causes skin irritation. Based on information from therapeutic use, this material may cause: Endocrine effects.
Eye contact	Causes eye irritation.
Ingestion	Based on information from therapeutic use, this material may cause: Endocrine effects.
Symptoms related to the physical, chemical, and toxicological characteristics	Corticosteroids: Fluid and electrolyte imbalance. Adrenal suppression. Immunosuppression. Cushing's syndrome. High blood pressure. Gastrointestinal disturbances. Headache. Lightheadedness. Weakness. Visual disturbances. Mood or mental status changes. Infection. Thinning skin. Swelling. Bruising. Bone fractures. Back pain. Joint pain. Tremors. Menstrual irregularities. Impotence.

#### Information on toxicological effects

Acute toxicity			
Product	Species	Test Results	
Betamethasone Dipropionate	(CAS 5593-20-4)		
Oral			
LD50	Mouse	> 5 g/kg	
	Rat	> 4 g/kg	
Skin corrosion/irritation	Causes skin irritation.		

# Serious eye damage/eye

irritation	Causes eye initation.
Local effects 1 % Skin irritation Result: Irritant. Species: Human Severity: Moderate. Eye irritation: species unk Result: Mild. Skin irritation Result: Negative. Species: Rabbit	nown
Respiratory or skin sensitization	1
<b>Respiratory sensitization</b>	Knowledge about health hazard is incomplete.
Skin sensitization	Knowledge about health hazard is incomplete.
Germ cell mutagenicity	Knowledge about mutagenicity is incomplete.
Carcinogenicity	Knowledge about carcinogenicity is incomplete.
IARC Monographs. Overall I	Evaluation of Carcinogenicity
Not regulated.	d Substances (29 CFR 1910.1001-1050) ogram (NTP) Report on Carcinogens
Reproductive toxicity	Suspected of damaging fertility or the unborn child.
Reproductive toxicity	Most studies have concluded that therapeutic use of corticosteroids by pregnant women does not cause adverse effects on the fetus. A small increase in the incidence of cleft palate was seen in some human studies. Infants born to mothers who received substantial doses of corticosteroids during pregnancy should be observed for signs of hypoadrenalism.
and cleft palate. Species: Rabbit 1 mg/kg Reproductiv Result: Increased fet Species: Rabbit 120 mg/kg Develome	included umbilical hernias, cephalocele, ity al resorptions.
Specific target organ toxicity - single exposure	Knowledge about health hazard is incomplete.
Specific target organ toxicity - repeated exposure	Causes damage to organs (endocrine system) through prolonged or repeated exposure.
Aspiration hazard	Based on available data, the classification criteria are not met.
Further information	Potent pharmacologically active material. Occupational exposure to small amounts may cause physiological effects.
12. Ecological information	
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	Minimally biodegradable.
Bioaccumulative potential	No data available.
Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
13. Disposal consideration	IS
Disposal instructions	Dispose in accordance with all applicable regulations. Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria

user of the product to determine, at the time of disposal, whether the product meets RCRA criteria

for hazardous waste.

Local disposal regulations	Dispose in accordance with all applicable regulations.		
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.		
Waste from residues / unused products	Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).		
Contaminated packaging	Since emptied containers may retain product residue, follow label warni emptied.	ngs even after container is
