

SAFETY DATA SHEET

1. Identification

Product identifier	Bisoprolol Fumarate		
Other means of identification	•		
Catalog number	1075757		
CAS number	104344-23-2		
Chemical name	2-Propanol, 1-[4-[[2-(1-methy (E)-2-butenedioate (2:1) (sal		ethyl]phenoxy]-3-[(1-methylethyl)amino]-, (+/-)-,
Recommended use	Specified quality tests and as	ssay use only.	
Recommended restrictions	Not for use as a drug. Not fo	r administration to	humans or animals.
Manufacturer/Importer/Supplier/I Manufacturer	Distributor information		
Company name Address	U. S. Pharmacopeia 12601 Twinbrook Parkway Rockville MD 20852-1790 United States		
Telephone	RS Technical Services	301-816-8129	
Website E-mail	www.usp.org RSTECH@usp.org		
Emergency phone number	CHEMTREC within US & Canada	1-800-424-9300	
	CHEMTREC outside US & Canada	+1 703-527-3887	7
2. Hazard(s) identification			
Physical hazards	Not classified.		
Health hazards	Acute toxicity, oral		Category 4
	Reproductive toxicity		Category 2
	Specific target organ toxicity exposure	, repeated	Category 1 (cardiovascular system)
Environmental hazards	Not classified.		
OSHA defined hazards	Not classified.		
Label elements			
Signal word	Warning Danger		
Hazard statement	Harmful if swallowed. Suspected of damaging fertility or the unborn child. Causes damage to organs (cardiovascular system) through prolonged or repeated exposure.		
Precautionary statement			
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.		
Response	If swallowed: Call a poison center/doctor if you feel unwell. Rinse mouth. If exposed or concerned: Get medical advice/attention.		
Storage	Store locked up.		
Disposal	Dispose of contents/contained	er in accordance w	vith local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.		
Supplemental information	Pharmacologically active ma	terial.	

3. Composition/information on ingredients

Chemical name	Common name and synonyms	CAS number	%	
Bisoprolol Fumarate		104344-23-2	100	
4. First-aid measures				
Inhalation	If breathing is difficult, remove to fresh air and Call a physician if symptoms develop or persi		nfortable for breathing	
Skin contact	Rinse skin with water/shower. Get medical attention if irritation develops and persists.			
Eye contact	Rinse with water. Get medical attention if irrit	ation develops and persists.		
Ingestion	Rinse mouth. If vomiting occurs, keep head lo Get medical advice/attention if you feel unwe		esn't get into the lung	
Most important symptoms/effects, acute and delayed	Cardiovascular effects. Pharmacologically active material. Occupational exposure may cause physiological effects.			
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and tree blocker overdose may include the following: I assist ventilation if necessary. Administer act to decrease absorption. Gastric lavage may in echocardiographic evaluation to expedite diar hypotension, administer intravenous fluids. For glucagon, calcium, or catecholamines (dopar high-dose insulin euglycemia therapy may all bradycardia, administer intravenous atropine, also be needed. For bronchospasm, administ corticosteroids may also be beneficial. For set lorazepam. Muscle relaxants and artificial ver conduction defects, sodium bicarbonate may glucagon. (Poisoning and Drug Overdose) (P	Do not induce vomiting. Mainta ivated charcoal as a slurry and ncrease vagal tone. Perform a gnosis and treatment of cardia or severe hypotension, admini nine, norepinephrine, epineph ow for a decrease in the dose , glucagon, and isoproterenol. ter nebulized bronchodilators. eizures administer intravenous ntilation may also be required. be helpful. For hypoglycemia,	ain an open airway and d perform gastric lavag in early ic toxicity. For mild ster intravenous rine). Concurrent of catecholamine. Fo Cardiac pacing may Systemic diazepam or For dysrhythmias and	
General information	Remove from exposure. Remove contaminat an occupational health physician or other lice chemical exposures. In the United States, the 1-800-222-1222. If person is not breathing, gi oxygen if available. Persons developing seric receive immediate medical attention.	ed clothing. For treatment adv nsed health-care provider fam a national poison control cente ive artificial respiration. If brea	iliar with workplace r phone number is thing is difficult, give	
5. Fire-fighting measures				
Suitable extinguishing media	Water. Foam. Dry chemical or CO2. Use fire- materials.	extinguishing media appropria	te for surrounding	
Unsuitable extinguishing media	None known.			
Specific hazards arising from the chemical	No unusual fire or explosion hazards noted.			
Special protective equipment and precautions for firefighters	Wear suitable protective equipment.			
Fire fighting equipment/instructions	Use water spray to cool unopened containers Firefighters should use self-contained breathi			
Specific methods	Use standard firefighting procedures and con	sider the hazards of other invo	olved materials.	
General fire hazards	No unusual fire or explosion hazards noted.			
6. Accidental release meas	sures			
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Wear appropriate personal protective equipment. Avoid inhalation of dust from the spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. For personal protection, see section 8 of the SDS.			
Methods and materials for containment and cleaning up	For waste disposal, see section 13 of the SDS. Avoid the generation of dusts during clean-up. Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination.			
Environmental precautions	Avoid discharge into drains, water courses or			
7. Handling and storage				
Precautions for safe handling	As a general rule, when handling USP Reference Standards, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material. Clean equipment and work surfaces with suitable detergent or solvent after use. After removing gloves, wash hands and other exposed s thoroughly. Select and use containment devices and personal protective equipment based on a risk assessment of material potency and exposure potential.			
Conditions for safe storage, including any incompatibilities	Store in tight container as defined in the USP label instructions to ensure product integrity.		nandled and stored pe	

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Exposure limit values Industrial Use		
Material	Туре	Value
Bisoprolol Fumarate (CAS 104344-23-2)	TWA	0.025 mg/m3
Biological limit values	No biological exposure limits noted f	or the ingredient(s).
Appropriate engineering controls	For laboratory operations, use local exhaust ventilation or a ventilated enclosure for high energy operations such as particle sizing. Control exposures to below the occupational exposure level (if available). Select and use containment devices and personal protective equipment based on a risk assessment of exposure potential. Cover all containers for solutions and slurries while being transferred.	
Individual protection measures	, such as personal protective equipm	nent
Eye/face protection	Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.	
Skin protection		
Hand protection	Wear nitrile or other impervious gloves if skin contact is possible. When the material is dissolved or suspended in an organic solvent, wear gloves that provide protection against the solvent.	
Other	Wear lab coat. Base the choice of skin protection on the job activity, potential for skin contact and solvents and reagents in use. Do not wear protective garments in common areas (e.g., cafeterias) or out-of-doors.	
Respiratory protection	Respirators are generally not required for laboratory operations. Use a tight-fitting full-face respirator with HEPA filters for spill cleanup. Chose respiratory protection appropriate to the task and the level of existing engineering controls.	
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.	
General hygiene considerations	Handling practices in this SDS are recommendations for laboratory use of reference standards. Procedures for any other uses or quantities should be determined after an appropriate assessment.	

9. Physical and chemical properties

, ,	•
Appearance	Appearance descriptions are general information and not specific to any USP lot.
Physical state	Solid.
Form	Powder.
Color	White.
Odor	Odorless.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	212 - 217.4 °F (100 - 103 °C)
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or expl	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Very soluble.

Solubility (other)	Acetone: Slightly Soluble. Chloroform: Freely soluble. Ethanol: Freely soluble. Ethyl acetate: Slightly soluble. Methanol: Very soluble.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Chemical family	Propanolamine.
Molecular formula	(C18H31NO4)2 . C4H4O4
Molecular weight	766.96
pH in aqueous solution	6 - 7 (5% solution)

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	NOx. Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Knowledge about health hazard is incomplete.
Skin contact	Knowledge about health hazard is incomplete.
Eye contact	Health injuries are not known or expected under normal use.
Ingestion	Harmful if swallowed. Based on information from therapeutic use, this material may cause: Cardiovascular effects.
Symptoms related to the physical, chemical, and toxicological characteristics	Beta-adrenergic blockers: Gastrointestinal disturbances. Headache. Mood or mental changes. Drowsiness. Weakness. Insomnia. Nervousness. Visual disturbances. Swelling of feet or legs. Muscle, joint, or chest paint. Seizures. Coma. Cardiovascular effects. Respiratory depression.

Information on toxicological effects

Acute toxicity Harmful if swallowed. Not known.

Product	Species	Test Results
Bisoprolol Fumarate (CAS 10434	4-23-2)	
Oral
