# SAFETY DATA SHEET

## 1. Identification

**Product identifier Bupropion Hydrochloride** 

Other means of identification

Catalog number 1078733 31677-93-7 **CAS** number **Synonyms** Amfebutamone

**Chemical name** 1-Propanone, 1-(3-chlorophenyl)-2-[(1,1-dimethylethyl)amino]-, hydrochloride, (+/-)-

Specified quality tests and assay use only. Recommended use

Not for use as a drug. Not for administration to humans or animals. **Recommended restrictions** 

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Company name U. S. Pharmacopeia **Address** 12601 Twinbrook Parkway

> Rockville MD 20852-1790 **United States**

**Telephone RS Technical Services** 301-816-8129

Website www.usp.org E-mail RSTECH@usp.org

**Emergency phone number** CHEMTREC within US & 1-800-424-9300

Canada

CHEMTREC outside US & +1 703-527-3887

Canada

2. Hazard(s) identification

**Physical hazards** Not classified.

**Health hazards** Acute toxicity, oral Category 4 Category 2A Serious eye damage/eye irritation

Not classified. **Environmental hazards OSHA** defined hazards Not classified.

Label elements

Signal word Warning

**Hazard statement** Harmful if swallowed. Causes serious eye irritation.

**Precautionary statement** 

Prevention Wash thoroughly after handling. Wear eye protection/face protection.

If swallowed: Call a poison center/doctor if you feel unwell. Rinse mouth. If in eyes: Rinse Response

cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing. If eye irritation persists: Get medical advice/attention.

**Storage** Not available.

**Disposal** Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise

classified (HNOC)

None known.

Supplemental information Pharmacologically active material.

Material name: Bupropion Hydrochloride USP SDS US

## 3. Composition/information on ingredients

#### **Substance**

Ingestion

Chemical name	Common name and synonyms	CAS number	%
Bupropion Hydrochloride	Amfebutamone	31677-93-7	100

#### 4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

**Skin contact** Get medical attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if

present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists. Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

Get medical advice/attention if you feel unwell.

Most important symptoms/effects, acute and

symptoms/effects, acute and delayed

Pharmacologically active material. Occupational exposure may cause physiological effects.

Indication of immediate medical attention and special treatment needed

Treatment of overdose should be symptomatic and supportive. Do not induce vomiting. Administer activated charcoal as a slurry. Perform gastric lavage. Perform aggressive airway management. Monitor vital signs. Monitor ECG. Monitor fluid and electrolyte status. For seizures, administer a benzodiazepine intravenously, followed by phenobarbital or propofol if the seizures recur. Monitor for hypotension, dysrhythmias, respiratory depression, and need for endotracheal intubation. Evaluate for hypoglycemia, electrolyte disturbances, hypoxia. For hypotension, infuse 10- 20 mL/kg isotonic fluid. Administer dopamine or norepinephrine if hypotension persists. For agitation, administer benzodiazepines. Hemodialysis is unlikely to be of benefit.

**General information** 

Remove from exposure. Remove contaminated clothing. For treatment advice, seek guidance from an occupational health physician or other licensed health-care provider familiar with workplace chemical exposures. In the United States, the national poison control center phone number is 1-800-222-1222. If person is not breathing, give artificial respiration. If breathing is difficult, give oxygen if available. Persons developing serious hypersensitivity (anaphylactic) reactions must receive immediate medical attention.

## 5. Fire-fighting measures

Suitable extinguishing media

Water. Foam. Dry chemical or CO2. Use fire-extinguishing media appropriate for surrounding

materials.

Unsuitable extinguishing

media

None known.

Specific hazards arising from

the chemical

No unusual fire or explosion hazards noted.

Special protective equipment and precautions for firefighters

Wear suitable protective equipment.

Fire fighting

Specific methods

equipment/instructions

Use water spray to cool unopened containers. As with all fires, evacuate personnel to a safe area.

Firefighters should use self-contained breathing equipment and protective clothing.

Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

# 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Wear appropriate personal protective equipment. Avoid inhalation of dust from the spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up

Avoid the generation of dusts during clean-up. Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.

**Environmental precautions** 

Avoid discharge into drains, water courses or onto the ground.

## 7. Handling and storage

Precautions for safe handling

As a general rule, when handling USP Reference Standards, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material. Clean equipment and work surfaces with suitable detergent or solvent after use. After removing gloves, wash hands and other exposed skin thoroughly. Select and use containment devices and personal protective equipment based on a risk assessment of material potency and exposure potential.

USP SDS US

Store in tight container as defined in the USP-NF. This material should be handled and stored per label instructions to ensure product integrity.

## 8. Exposure controls/personal protection

### Occupational exposure limits

Exposure limit values Industrial Use

Material

Bupropion Hydrochloride

Type Value

TWA 1000
micrograms/m3

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

(CAS 31677-93-7)

For laboratory operations, use local exhaust ventilation or a ventilated enclosure for high energy operations such as particle sizing. Control exposures to below the occupational exposure level (if available). Select and use containment devices and personal protective equipment based on a risk assessment of exposure potential. Cover all containers for solutions and slurries while being transferred.

### Individual protection measures, such as personal protective equipment

**Eye/face protection** Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary.

Base the choice of protection on the job activity and potential for contact with eyes or face. An

emergency eye wash station should be available.

Skin protection

**Hand protection** Wear nitrile or other impervious gloves if skin contact is possible. When the material is dissolved

or suspended in an organic solvent, wear gloves that provide protection against the solvent.

Other Train employees in proper gowning and degowning practices. Wear lab coat. Base the choice of

skin protection on the job activity, potential for skin contact and solvents and reagents in use. Do

not wear protective garments in common areas (e.g., cafeterias) or out-of-doors.

**Respiratory protection** Respirators are generally not required for laboratory operations. Use a tight-fitting full-face

respirator with HEPA filters for spill cleanup. Choose respiratory protection appropriate to the task

and the level of existing engineering controls.

**Thermal hazards** Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Handling practices in this SDS are recommendations for laboratory use of reference standards.

Procedures for any other uses or quantities should be determined after an appropriate

assessment.

# 9. Physical and chemical properties

Appearance Appearance descriptions are general information and not specific to any USP lot.

Physical stateSolid.FormPowder.

Color White. Off-white.

Odorless. Characteristic.

Odor threshold Not available.
pH Not available.

Melting point/freezing point 428 - 453.2 °F (220 - 234 °C) (decomposes)

Initial boiling point and boiling No

range

Not available.

Flash point Not available.

Evaporation rate Not available.

Flammability (solid, gas) Not available.

Upper/lower flammability or explosive limits

Flammability limit - lower

Not available.

(%)

Not available.

Flammability limit - upper (%)

Not available.

Explosive limit - lower (%)
Explosive limit - upper (%)

Not available.

Vapor pressure

Not available.

USP SDS US

Vapor density Not available.

Relative density Not available.

Solubility(ies)

Solubility (water) Soluble.

**Solubility (other)** 0.1 N Hydrochloric acid: Soluble.

1.54

Ethanol: Soluble.

Partition coefficient

(n-octanol/water)

Auto-ignition temperatureNot available.Decomposition temperatureNot available.ViscosityNot available.

Other information

Chemical familyAminoketone.Molecular formulaC13H18CINO . HCI

Molecular weight 276.2

pH in aqueous solution 4.2 - 4.6 Solution: 10%

## 10. Stability and reactivity

**Reactivity**The product is stable and non-reactive under normal conditions of use, storage and transport.

**Chemical stability** Material is stable under normal conditions.

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid Contact with incompatible materials.

Incompatible materials Strong oxidizing agents.

**Hazardous decomposition** 

products

NOx. Cl-. Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions.

Gastrointestinal disturbances. Central nervous system effects. Dry mouth. Sore throat. Sweating.

## 11. Toxicological information

## Information on likely routes of exposure

InhalationKnowledge about health hazard is incomplete.Skin contactKnowledge about health hazard is incomplete.

**Eye contact** Causes serious eye irritation.

**Ingestion** Harmful if swallowed.

Symptoms related to the

physical, chemical, and toxicological

characteristics

Skin rash. Fast heartbeat. Irregular heartbeat.

### Information on toxicological effects

# **Acute toxicity**

Product Species Test Results

Bupropion Hydrochloride (CAS 31677-93-7)

Oral

LD50 Mouse 544 mg/kg
Rat 482 mg/kg

**Skin corrosion/irritation** Based on available data, the classification criteria are not met.

Serious eye damage/eye

irritation

Causes serious eye irritation.

### Local effects

Eye irritation Result: Irritant Species: Rabbit Skin irritation Result: Non-irritant Species: Rabbit

1078733 Version #: 04 Revision date: 07-11-2019 Issue date: 10-05-2006

### Respiratory or skin sensitization

Respiratory sensitization Knowledge about health hazard is incomplete. Skin sensitization Knowledge about health hazard is incomplete. Germ cell mutagenicity Knowledge about mutagenicity is incomplete.

Mutagenicity

Mutagenicity, Ames bacterial mutagenicity test

Result: Weakly positive.

Mutagenicity, In vivo rat bone marrow cytogenic study

Result: Positive.

Mutagenicity, Mouse lymphoma thymidine kinase

locus assay Result: Negative.

Carcinogenicity

Based on available data, the classification criteria are not met.

100 - 300 mg/kg/day Carcinogenicity

Result: Increase in nodular proliferative liver nodules; no

increase in malignant tumors.

Species: Rat

150 mg/kg/day Carcinogenicity

Result: No increase in malignant tumors.

Species: Mouse

IARC Monographs. Overall Evaluation of Carcinogenicity

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens

Not listed.

Reproductive toxicity Knowledge about health hazard is incomplete.

Reproductivity

300 mg/kg/day Reproductivity / Developmental, Administered

prior to mating and during gestation

Result: No apparent adverse effects on fertility or offspring

development. Species: Rat

<= 150 mg/kg/day Reproductivity / Developmental

Result: Slight increase incidence of malformations;

decreased fetal weights.

Species: Rabbit

Specific target organ toxicity -

Knowledge about health hazard is incomplete.

Specific target organ toxicity -

repeated exposure

single exposure

Knowledge about health hazard is incomplete.

**Aspiration hazard** 

Based on available data, the classification criteria are not met.

**Further information** Pharmacologically active material. Occupational exposure may cause physiological effects.

## 12. Ecological information

#### **Ecotoxicity**

Product		Species	Test Results		
Bupropion Hydrochloride (CAS 31677-93-7)					
Aquatic					
Crustacea	EC50	Daphnia	3.8 mg/l, 48 hours		
Fish	EC50	Rainbow trout, donaldson trout (Oncorhynchus mykiss)	33 mg/l, 96 hours		

Persistence and degradability

No data is available on the degradability of this substance.

**Bioaccumulative potential** 

Octanol/water partition coefficient log Kow

1.54 x 10 <sup>3</sup>

No data available. Mobility in soil

Material name: Bupropion Hydrochloride USP SDS US Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

## 13. Disposal considerations

Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, **Disposal instructions** 

whether the product meets RCRA criteria for hazardous waste. Dispose in accordance with all

applicable regulations.

Dispose in accordance with all applicable regulations. Local disposal regulations

Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Empty containers or liners may retain some product residues. This material and its container must

be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is

emptied.

## 14. Transport information

DOT

Not regulated as dangerous goods.

IATA

Not regulated as dangerous goods.

Transport in bulk according to

Not applicable.

Annex II of MARPOL 73/78 and

the IBC Code

**General information** It is the shipper's responsibility to determine the correct transport classification at the time of

shipment.

### 15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication

Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

**CERCLA Hazardous Substance List (40 CFR 302.4)** 

Not listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

SARA 302 Extremely hazardous substance

Not listed

SARA 311/312 Hazardous Yes

chemical

Classified hazard Acute toxicity (any route of exposure) Serious eye damage or eye irritation

SARA 313 (TRI reporting)

Not regulated.
