

SAFETY DATA SHEET

1. Identification

Product identifier	Clarithromycin Identity		
Other means of identification			
Catalog number	1134390		
Recommended use	For analytical laboratory use only.		
Recommended restrictions	Not for use as a drug. Not for	or administration to humans or animals.	
Manufacturer/Importer/Supplier/	Distributor information		
Manufacturer			
Company name Address	U. S. Pharmacopeia 12601 Twinbrook Parkway Rockville MD 20852-1790 United States		
Telephone	Technical Services	301-816-8129	
Website	www.usp.org		
E-mail Emergency phone number	RSTECH@usp.org CHEMTREC within US &	1-800-424-9300	
Emergency phone number	Canada	1-000-727-3300	
	CHEMTREC outside US & Canada	+1 703-527-3887	
2. Hazard(s) identification			
Physical hazards	Not classified.		
Health hazards	Acute toxicity, oral	Category 4	
Environmental hazards	Not classified.		
OSHA defined hazards	Not classified.		
Label elements			
Signal word	Warning		
Hazard statement	Harmful if swallowed.		
Precautionary statement			
Prevention	Wash thoroughly after hand	lling.	
Response	If swallowed: Call a poison center/doctor if you feel unwell. Rinse mouth.		
Storage	Not available.		
Disposal	Dispose of contents/contained	er in accordance with local/regional/national/international regulations.	
Hazard(s) not otherwise classified (HNOC)		small quantity which does not constitute a combustible dust hazard. is material indicate that in large quantities accumulated dust may be	
Supplemental information	Pharmacologically active ma	aterial.	

3. Composition/information on ingredients

Mixture

Chemical name	Common name and synonyms	CAS number	%
Clarithromycin		81103-11-9	96-98
Related Impurities		No Data	1-3

Information provided in the SDS is not specific to the lot provided. Refer to the label and USP Certificate/Product Information Sheet for the assigned value of a particular lot.

4. First-aid measures	
Inhalation	If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical advice/attention if you feel unwell.
Most important symptoms/effects, acute and delayed	Pharmacologically active material. Occupational exposure may cause physiological effects.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically.
General information	Remove from exposure. Remove contaminated clothing. For treatment advice, seek guidance from an occupational health physician or other licensed health-care provider familiar with workplace chemical exposures. In the United States, the national poison control center phone number is 1-800-222-1222. If person is not breathing, give artificial respiration. If breathing is difficult, give oxygen if available. Persons developing serious hypersensitivity (anaphylactic) reactions must receive immediate medical attention.
5. Fire-fighting measures	
Suitable extinguishing media	Water. Foam. Dry chemical or CO2. Use fire-extinguishing media appropriate for surrounding materials.
Unsuitable extinguishing media	None known.
Specific hazards arising from the chemical	Explosion hazard: Avoid generating dust; fine dust dispersed in air in sufficient concentrations and in the presence of an ignition source is a potential dust explosion hazard.

Wear suitable protective equipment.

and precautions for firefighters As with all fires, evacuate personnel to a safe area. Firefighters should use self-contained breathing equipment and protective clothing. equipment/instructions **Specific methods**

Use standard firefighting procedures and consider the hazards of other involved materials.

No unusual fire or explosion hazards noted.

6. Accidental release measures

Special protective equipment

Fire fighting

General fire hazards

Personal precautions, protective equipment and emergency procedures	Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Keep unnecessary personnel away. Wear appropriate personal protective equipment. Avoid inhalation of dust from the spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Avoid the generation of dusts during clean-up. Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	As a general rule, when handling USP materials, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material. Clean equipment and work surfaces with suitable detergent or solvent after use. After removing gloves, wash hands and other exposed skin thoroughly. Avoid significant deposits of material, especially on horizontal surfaces, which may become airborne and form combustible dust clouds and may contribute to secondary explosions. Combustible dust clouds may be created where operations produce fine material (dust). Select and use containment devices and personal protective equipment based on a risk assessment of material potency and exposure potential.
Conditions for safe storage, including any incompatibilities	Store in tight container. This material should be handled and stored per label instructions to ensure product integrity.

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Exposure limit values Industrial Use Components	Туре	Value	
Clarithromycin (CAS 81103-11-9)	TWA	1 mg/m3	
Biological limit values	No biological exposure limits noted	l for the ingredient(s).	
Appropriate engineering controls	For laboratory operations, use local exhaust ventilation or a ventilated enclosure for high energy operations such as particle sizing. Control exposures to below the occupational exposure level (if available). Select and use containment devices and personal protective equipment based on a risk assessment of exposure potential. Cover all containers for solutions and slurries while being transferred.		
Individual protection measure	es, such as personal protective equip	oment	
Eye/face protection	Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.		
Skin protection			
Hand protection		oves if skin contact is possible. When the material is dissolv t, wear gloves that provide protection against the solvent.	/ed
Other	skin protection on the job activity,	g and degowning practices. Wear lab coat. Base the choice potential for skin contact and solvents and reagents in use. mmon areas (e.g., cafeterias) or out-of-doors.	
Respiratory protection		red for laboratory operations. Use a tight-fitting full-face cleanup. Choose respiratory protection appropriate to the g controls.	task
Thermal hazards	Wear appropriate thermal protectiv	e clothing, when necessary.	
General hygiene considerations	Handling practices in this SDS are	recommendations for laboratory use of USP materials.	

9. Physical and chemical properties

-	
Appearance	Appearance descriptions are general information and not specific to any USP lot.
Physical state	Solid.
Form	Powder.
Color	White. Off-white.
Odor	Odorless.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or expl	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	< 0.0000001 kPa at 25 °C
Vapor density	Not available.

Relative density	Not available.	
Solubility(ies)		
Solubility (water)	Not available.	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Viscosity	Not available.	
Other information		
Chemical family	Macrolide antibiotic.	

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Oxidizing agents.
Hazardous decomposition products	Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions. NOx.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Knowledge about health hazard is incomplete.
Skin contact	Knowledge about health hazard is incomplete.
Eye contact	Knowledge about health hazard is incomplete.
Ingestion	Harmful if swallowed.
Symptoms related to the physical, chemical and toxicological characteristics	Macrolide antibiotics: Gastrointestinal disturbances. Taste perversion. Yellow eyes or skin. Hearing loss. Ringing in ears. Fever.

Information on toxicological effects

Acute toxicity	Harmful if swallowed.		
Components	Species	Test Results	
Clarithromycin (CAS 81103-11-9)			
Oral			
LD50	Mouse	1230 mg/kg	
	Rat	1270 mg/kg	
Skin corrosion/irritation	Knowledge about health haz	Knowledge about health hazard is incomplete.	
Serious eye damage/eye irritation	Knowledge about health haz	Knowledge about health hazard is incomplete.	
Respiratory or skin sensitizatio	n		
Respiratory sensitization	Knowledge about health hazard is incomplete.		
Skin sensitization	Knowledge about health hazard is incomplete.		
Clarithromycin		Local Lymph Node Assay Result: Negative. Organ: Skin. Mouse ear swelling test Result: Negative. Organ: Skin.	
Germ cell mutagenicity	Knowledge about mutagenicity is incomplete.		
Mutagenicity Clarithromycin		Ames test (Salmonella typhimurium) Result: Negative. Dominant lethal test Result: Negative. Species: Mouse	

Mutagenicity		
Clarithromycin		vivo (Mouse) micronucleus test
		esult: Negative. buse lymphoma assay
		esult: Negative.
	Mu	utagenicity, Mammalian microsome bacterial induced
		utation
		esult: Negative. utagenicity, Rat hepatocyte DNA synthesis assay
		esult: Negative.
Carcinogenicity		
IARC Monographs. Overall I	Evaluation of Carcinogenicity	
Not listed.		
OSHA Specifically Regulate	d Substances (29 CFR 1910.1001-	1053)
Not listed.		
	gram (NTP) Report on Carcinoge	ns
Not listed.		
Reproductive toxicity	Knowledge about health hazard is	incomplete.
Reproductivity		125 malla Depreductivity. No torotogonicity or fototovicity
Clarithromycin		125 mg/kg Reproductivity, No teratogenicity or fetotoxicity; fspring were normal.
	Re	esult: Negative.
		pecies: Rabbit
		0 mg/kg/day Reproductivity, Caused increased incidence cardiovascular abnormalities.
		esult: Positive.
		pecies: Rat
		0 mg/kg/day Reproductivity, Increased incidence of cleft late.
	· · · · · · · · · · · · · · · · · · ·	esult: Positive
	Sp	becies: Mouse
Specific target organ toxicity - single exposure	Knowledge about health hazard is	incomplete.
Specific target organ toxicity -	Knowledge about health hazard is	incomplete.
repeated exposure		
Aspiration hazard	Based on available data, the class	ification criteria are not met.
Further information	Pharmacologically active material. Occupational exposure may cause physiological effects.	
12. Ecological information		
-		vironmentally hazardous. However, this does not exclude the
Ecotoxicity		bills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data is available on the degrad	lability of this product.
Bioaccumulative potential	No data available.	
Mobility in soil	No data available.	
Other adverse effects		ffects (e.g. ozone depletion, photochemical ozone creation bal warming potential) are expected from this component.
13. Disposal consideration	IS	
Disposal instructions		plicable regulations. Under RCRA, it is the responsibility of the
		at the time of disposal, whether the product meets RCRA criteria
Local disposal regulations	Dispose in accordance with all app	plicable regulations.
Hazardous waste code	The waste code should be assigne disposal company.	ed in discussion between the user, the producer and the waste
Waste from residues / unused products	Empty containers or liners may ret be disposed of in a safe manner (s	tain some product residues. This material and its container must see: Disposal instructions).
Contaminated packaging		to an approved waste handling site for recycling or disposal. ain product residue, follow label warnings even after container is

14. Transport information

DOT

Not regulated as dangerous goods.

ΙΑΤΑ

Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable.
General information	It is the shipper's responsibility to determine the correct transport classification at the time of shipment.

15. Regulatory information

15. Regulatory mormatio	11		
US federal regulations	This product is a "Ha Standard, 29 CFR 19	zardous Chemical" as defined by the OSHA Ha 010.1200.	zard Communication
Toxic Substances Control	Act (TSCA)		
TSCA Section 12(b) Ex	port Notification (40 C	FR 707, Subpt. D)	
Not regulated.			
CERCLA Hazardous Substa	ance List (40 CFR 302.	4)	
Not listed. SARA 304 Emergency relea	ase notification		
Not regulated.			
OSHA Specifically Regulate	ed Substances (29 CFI	R 1910.1001-1053)	
Not listed.			
Superfund Amendments and Re	eauthorization Act of 1	986 (SARA)	
SARA 302 Extremely hazar	dous substance		
Not listed.			
SARA 311/312 Hazardous chemical	Yes		
Classified hazard categories	Acute toxicity (any ro	ute of exposure)	
SARA 313 (TRI reporting) Not regulated.			
Other federal regulations			
Clean Air Act (CAA) Section	n 112 Hazardous Air P	ollutants (HAPs) List	
Not regulated. Clean Air Act (CAA) Section	n 112(r) Accidental Re	lease Prevention (40 CFR 68.130)	
Not regulated.		(
Safe Drinking Water Act (SDWA)	Not regulated.		
US state regulations			
California Proposition 65			
		you to Clarithromycin, which is known to the Sta oductive harm. For more information go to www	
California Proposition	65 - CRT: Listed date/I	Developmental toxin	
Clarithromycin (CAS	S 81103-11-9)	Listed: May 1, 1997	
International Inventories			
Country(s) or region	Inventory name		On inventory (yes/no)*
Australia	-	Australian Inventory of Chemical Substances (AICS)	
Canada	Domestic Substances List (DSL) No		
Canada	Non-Domestic Substances List (NDSL) No		
China	Inventory of Existing	Inventory of Existing Chemical Substances in China (IECSC) No	
Europe	European Inventory of Substances (EINECS	of Existing Commercial Chemical	No

Country(s) or region	Inventory name	On inventory (yes/no)*
Europe	European List of Notified Chemical Substances (ELINCS)	No
Japan	Inventory of Existing and New Chemical Substances (ENCS)	No
Korea	Existing Chemicals List (ECL)	No
New Zealand	New Zealand Inventory	No
Philippines	Philippine Inventory of Chemicals and Chemical Substances (PICCS)	No
Taiwan	Taiwan Chemical Substance Inventory (TCSI)	No
United States & Puerto Rico	Toxic Substances Control Act (TSCA) Inventory	No

*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s) A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

16. Other information, including date of preparation or last revision

Issue date Revision date Version #	04-14-2010 08-23-2022 05
Further information	Refer to NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids, for safe handling.
Disclaimer	USP materials are sold for analytical laboratory use only, and NOT for human consumption. The information contained herein is applicable solely to the chemical substance when used for analytical laboratory use and does not necessarily relate to any other use of the substance described, (i.e. at different concentrations, in drug dosage forms, or in bulk quantities). USP materials are intended for use by persons having technical skill and at their own discretion and risk.
