SAFETY DATA SHEET

1. Identification

Product identifier	Etidronic Acid Monohydrate		
Other means of identification			
Catalog number	1268604		
CAS number	25211-86-3		
Synonyms	EHDP . H2O		
Chemical name	Phosphonic acid, (1-hydroxyethylidene)bis-, monohydrate		
Recommended use	Specified quality tests and assay use only.		
Recommended restrictions	Not for use as a drug. Not for administration to humans or animals.		
Manufacturer/Importer/Supplier/	Distributor information		
Manufacturer			
Company name Address	U. S. Pharmacopeia 12601 Twinbrook Parkway Rockville MD 20852-1790 United States		
Telephone	RS Technical Services 301-816-8129		
Website	www.usp.org		
E-mail	RSTECH@usp.org		
Emergency phone number	CHEMTREC within US & 1-800-424-9300 Canada CHEMTREC outside US & +1 703-527-3887 Canada		
2. Hazard(s) identification			
Physical hazards	Not classified.		
Health hazards	Serious eye damage/eye irritation Category 1		
neatti nazarus	Reproductive toxicity Category 2		
	Specific target organ toxicity, single exposure Category 1 (bone)		
Environmental hazards			
	Not classified.		
OSHA defined hazards	Not classified.		
Label elements			
Signal word	Danger		
Hazard statement	Causes serious eye damage. Suspected of damaging fertility or the unborn child. Causes damage to organs (bone).		
Precautionary statement			
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.		
Response	If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If exposed: Call a poison center/doctor.		
Storage	Store locked up.		
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.		

Pharmacologically active material.

3. Composition/information on ingredients

Substance			
Chemical name	Common name and synonyms	CAS number	%
Etidronic Acid Monohydrate	EHDP . H2O	25211-86-3	100
4. First-aid measures			
Inhalation	If breathing is difficult, remove to fresh air and Call a physician if symptoms develop or persisted		nfortable for breathing.
Skin contact	Rinse skin with water/shower. Get medical attention if irritation develops and persists.		
Eye contact	Rinse cautiously with water for several minutes. Call a physician or poison control center immediately.		
Ingestion	Rinse mouth thoroughly. If ingestion of a large amount does occur, call a poison control center immediately.		
Most important symptoms/effects, acute and delayed	Bone damage. Pharmacologically active material. Occupational exposure may cause physiological effects.		
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Treatment of bisphosphonate overdose may include the following: Immediately after ingestion, give milk or antacids to prevent absorption. Do not induce vomiting. If necessary, administer activated charcoal as a slurry; treat esophagitis with omeprazole. For hypocalcemia, administer intravenous calcium salts, calcium gluconate or calcium chloride. More rapid administration may be necessary in patients with dysrhythmias. Monitor vital signs. Monitor ECG continuously. Monitor for signs and symptoms of upper gastrointestinal ulceration or hemorrhage which has occurred with some bisphosphonates. Dialysis is not generally considered effective.		
General information	Remove from exposure. Remove contaminate an occupational health physician or other licer chemical exposures. In the United States, the 1-800-222-1222. If person is not breathing, gi oxygen if available. Persons developing serior receive immediate medical attention.	nsed health-care provider fan national poison control cente ve artificial respiration. If brea	niliar with workplace er phone number is thing is difficult, give
5. Fire-fighting measures			
Suitable extinguishing media	Water. Foam. Dry chemical or CO2. Use fire-omaterials.	extinguishing media appropria	ate for surrounding
Unsuitable extinguishing media	None known.		
Specific hazards arising from the chemical	No unusual fire or explosion hazards noted.		
Special protective equipment and precautions for firefighters	Wear suitable protective equipment.		
Fire fighting equipment/instructions	Use water spray to cool unopened containers. As with all fires, evacuate personnel to a safe a Firefighters should use self-contained breathing equipment and protective clothing.		
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.		
General fire hazards	No unusual fire or explosion hazards noted.		
6. Accidental release meas	sures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Wear appropriate personal protective equipment. Avoid inhalation of dust from the spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. For personal protection, see section 8 of the SDS.		
Methods and materials for containment and cleaning up	For waste disposal, see section 13 of the SDS. Avoid the generation of dusts during clean-up. Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination.		

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage			
Precautions for safe handling	As a general rule, when handling USP Reference Standards, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material. Clean equipment and work surfaces with suitable detergent or solvent after use. After removing gloves, wash hands and other exposed skin thoroughly. Select and use containment devices and personal protective equipment based on a risk assessment of material potency and exposure potential.		
Conditions for safe storage, including any incompatibilities	Store in tight container as defined in the USP-NF. This material should be handled and stored per label instructions to ensure product integrity.		
8. Exposure controls/personal protection			
Occupational exposure limits	No exposure limits noted for ingredient(s).		
Biological limit values	No biological exposure limits noted for the ingredient(s).		
Appropriate engineering controls	For laboratory operations, use local exhaust ventilation or a ventilated enclosure for high energy operations such as particle sizing. Control exposures to below the occupational exposure level (if available). Select and use containment devices and personal protective equipment based on a risk assessment of exposure potential. Cover all containers for solutions and slurries while being transferred.		
Individual protection measures, such as personal protective equipment			
Eye/face protection	Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.		
Skin protection			
Hand protection	Wear nitrile or other impervious gloves if skin contact is possible. When the material is dissolved or suspended in an organic solvent, wear gloves that provide protection against the solvent.		
Other	Train employees in proper gowning and degowning practices. Wear lab coat. Base the choice of skin protection on the job activity, potential for skin contact and solvents and reagents in use. Do not wear protective garments in common areas (e.g., cafeterias) or out-of-doors.		
Respiratory protection	Respirators are generally not required for laboratory operations. Use a tight-fitting full-face respirator with HEPA filters for spill cleanup. Chose respiratory protection appropriate to the task and the level of existing engineering controls.		
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.		
General hygiene considerations	Handling practices in this SDS are recommendations for laboratory use of reference standards. Procedures for any other uses or quantities should be determined after an appropriate assessment.		

9. Physical and chemical properties

,	•	
Appearance	Appearance descriptions are general information and not specific to any USP lot.	
Physical state	Solid.	
Form	Powder.	
Color	White.	
Odor	Not available.	
Odor threshold	Not available.	
рН	Not available.	
Melting point/freezing point	381.2 - 399.2 °F (194 - 204 °C)	
Initial boiling point and boiling range	Not available.	
Flash point	Not available.	
Evaporation rate	Not available.	
Flammability (solid, gas)	Not available.	
Upper/lower flammability or explosive limits		
Flammability limit - lower (%)	Not available.	
Flammability limit - upper (%)	Not available.	
Explosive limit - lower (%)	Not available.	
Explosive limit - upper (%)	Not available.	
Vapor pressure	Not available.	

Vapor density	Not available.	
Relative density	Not available.	
Solubility(ies)		
Solubility (water)	Freely soluble.	
Partition coefficient (n-octanol/water)	-3.49	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Viscosity	Not available.	
Other information		
Chemical family	Bisphosphonate.	
Molecular formula	C2H8O7P2 . H2O	
Molecular weight	224.04	
10. Stability and reactivity		
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.	
Chemical stability	Material is stable under normal conditions.	
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.	
Conditions to avoid	Contact with incompatible materials.	
Incompatible materials	None known.	

11. Toxicological information

Hazardous decomposition

products

Information on likely routes of exposure

Inhalation	Knowledge about health hazard is incomplete.
Skin contact	Knowledge about health hazard is incomplete.
Eye contact	Causes serious eye damage.
Ingestion	Based on information from therapeutic use, this material may cause: Bone damage.
Symptoms related to the physical, chemical, and toxicological characteristics	Bisphosphonates: Nausea. Vomiting. Abdominal pain. Flu-like symptoms. Fever. Chills. Headache. Fatigue. Sleepiness. Burning, prickling, itching, or tingling of skin. Skin rash. Vision problems. Bone, joint, or muscle pain. Seizures.

POx. Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions.

Information on toxicological effects

Acute toxicity

Product	Species	Test Results	
Etidronic Acid Monohydrate (C	AS 25211-86-3)		
Dermal			
LD50	Rabbit	8630 mg/kg	
Oral			
LD50	Rat	2610 mg/kg	
Skin corrosion/irritation	Based on available data, the classification criteria are not met.		
Serious eye damage/eye irritation	Causes serious eye damage.		
Local effects Eye irritation Result: Positive. Species: Rabbit Severity: Severe. Skin irritation Result: Negative. Species: Rabbit			

Beenivetery or ekin consideration	-		
Respiratory or skin sensitization Respiratory sensitization	Knowledge about health hazard is incomplete.		
Skin sensitization	Knowledge about health hazard is incomplete.		
Germ cell mutagenicity	Knowledge about mutagenicity is incomplete.		
Carcinogenicity	Knowledge about carcinogenicity is incomplete.		
• •	Evaluation of Carcinogenicity		
Not listed.			
	d Substances (29 CFR 1910.1001-1050)		
Not regulated.	ogram (NTP) Report on Carcinogens		
Not listed.			
Reproductive toxicity	Suspected of damaging fertility or the unborn child. Bisphosphonates are incorporated into the bone matrix and are gradually released over periods of weeks to years. Although there are no data on fetal risk in humans, bisphosphonates are associated with fetal harm in animals and animal data suggest that uptake of bisphosphonates into fetal bone is greater than into maternal bone.		
Specific target organ toxicity - single exposure	Causes damage to organs (bone).		
Specific target organ toxicity - repeated exposure	Knowledge about health hazard is incomplete.		
Aspiration hazard	Based on available data, the classification criteria are not met.		
Further information	Pharmacologically active material. Occupational exposure may cause physiological effects.		
12. Ecological information	1		
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.		
Persistence and degradability	No data is available on the degradability of this product.		
Bioaccumulative potential			
Octanol/water partition coef -3.49	fficient log Kow		
Mobility in soil	No data available.		
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.		
13. Disposal consideration	ns		
Disposal instructions	Dispose in accordance with all applicable regulations. Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste.		
Local disposal regulations	Dispose in accordance with all applicable regulations.		
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.		
Waste from residues / unused products	Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).		
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.		
14. Transport information			
DOT			
Not regulated as dangerous g	loods.		
Not regulated as dangerous g	loods.		
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable.		

General information

It is the shipper's responsibility to determine the correct transport classification at the time of shipment.

15. Regulatory information

15. Regulatory information	1		
US federal regulations	This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.		
TSCA Section 12(b) Export	Notification (40 CFR 707, Subpt. D)		
Not regulated. CERCLA Hazardous Substa	nce List (40 CFR 302.4)		
Not listed. SARA 304 Emergency relea	se notification		
Not regulated.			
•	d Substances (29 CFR 1910.1001-1050)		
Ũ	authorization Act of 1986 (SARA)		
Hazard categories	Immediate Hazard - Yes Delayed Hazard - Yes Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No		
SARA 302 Extremely hazard	lous substance		
Not listed.			
SARA 311/312 Hazardous chemical	Yes		
SARA 313 (TRI reporting) Not regulated.			
Other federal regulations			
Clean Air Act (CAA) Section	112 Hazardous Air Pollutants (HAPs) List		
Not regulated.			
	112(r) Accidental Release Prevention (40 CFR 68.130)		
Not regulated.			
Safe Drinking Water Act (SDWA)	Not regulated.
