# SAFETY DATA SHEET

# 1. Identification

Product identifier	1,3-Propanediol	
Other means of identification		
Catalog number	1570483	
CAS number	504-63-2	
Synonyms	Trimethylene glycol	
Chemical name	1,3-Propanediol	
Recommended use	For analytical laboratory use	e only.
Recommended restrictions	Not for use as a drug. Not for	or administration to humans or animals.
Manufacturer/Importer/Supplier/	Distributor information	
Manufacturer		
Company name	U. S. Pharmacopeia	
Address	12601 Twinbrook Parkway	
	Rockville MD	
	20852-1790	
	United States

# 7. Handling and storage

Precautions for safe handling	As a general rule, when handling USP materials, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material. Clean equipment and work surfaces with suitable detergent or solvent after use. After removing gloves, wash hands and other exposed skin thoroughly. Select and use containment devices and personal protective equipment based on a risk assessment of material potency and exposure potential.
Conditions for safe storage, including any incompatibilities	Store in tight container. This material should be handled and stored per label instructions to ensure product integrity.

## 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Exposure limit values Industrial Use Material	Туре	Value	
1,3-Propanediol (CAS 504-63-2)	TWA	5 mg/m3	
Biological limit values	No biological exposure limits noted	or the ingredient(s).	
Appropriate engineering controls	For laboratory operations, use good technique and limit open handling. Control exposures to below the occupational exposure level (if available). Select and use containment devices and personal protective equipment based on a risk assessment of exposure potential. Cover all containers for solutions and slurries while being transferred.		
Individual protection measure	es, such as personal protective equipr	nent	
Eye/face protection	Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.		
Skin protection			
Hand protection		es if skin contact is possible. When the material is dissolved wear gloves that provide protection against the solvent.	
Other	Wear lab coat. Base the choice of skin protection on the job activity, potential for skin contact and solvents and reagents in use. Do not wear protective garments in common areas (e.g., cafeterias) or out-of-doors.		
Respiratory protection	Respirators are generally not required for laboratory operations. Choose respiratory protection appropriate to the task and the level of existing engineering controls.		
Thermal hazards	Wear appropriate thermal protective	clothing, when necessary.	
General hygiene considerations	Handling practices in this SDS are r	ecommendations for laboratory use of USP materials.	

# 9. Physical and chemical properties

Appearance	Appearance descriptions are general information and not specific to any USP lot.
Physical state	Liquid.
Form	Liquid.
Color	Colorless.
Odor	Odorless.
Odor threshold	Not available.
рН	Neutral
Melting point/freezing point	-11.216.6 °F (-2427 °C)
Initial boiling point and boiling range	410 - 417.2 °F (210 - 214 °C)
	410 - 413.6 °F (210 - 212 °C)
Flash point	267.8 °F (131.0 °C) Cleveland Open Cup
Evaporation rate	< 1 (butyl acetate=1)
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	0.08 mm Hg at 20 °C; 1 mmHg at 59 °C
Vapor density	2.62 (air=1)
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Miscible.
Solubility (other)	Alcohol: Miscible. Ether: Soluble.

Auto-ignition temperature	752 °F (400 °C) 752 °F (400 °C)
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Chemical family	Glycol.
Kinematic viscosity	44.923 mm2/s (75.2 °F (24 °C))
Molecular formula	C3H8O2
Molecular weight	76.11
Specific gravity	1.05
Surface tension	74.16 mN/m (69.8 °F (21 °C))

# 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents. Strong acids.
Hazardous decomposition products	Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions.

# 11. Toxicological information

### Information on likely routes of exposure

Inhalation	Knowledge about health hazard is incomplete.
Skin contact	Causes skin irritation.
Eye contact	Knowledge about health hazard is incomplete.
Ingestion	Knowledge about health hazard is incomplete.
Symptoms related to the physical, chemical and toxicological characteristics	Skin irritation.

### Information on toxicological effects

### Acute toxicity

Product	Species	Test Results
1,3-Propanediol (CAS 504-63-2)		
<u>Acute</u>		
Dermal		
LD50	Rabbit	> 20000 mg/kg
	Rat	> 4200 mg/kg, 24 Hours
Oral		
LD50	Rat	15000 mg/kg
		10500 mg/kg
Skin corrosion/irritation	Causes skin irritation.	
Serious eye damage/eye irritation	Knowledge about health hazard is incomplete.	
Local effects Irritancy test (100%) Result: Irritant. Species: Human Organ: Skin. Test Duration: 48 hours Severity: Moderate.		

#### Local effects

Irritancy test (100%) Result: Irritant. Species: Human Organ: Skin. Test Duration: 7 days Severity: Moderate.

#### Respiratory or skin sensitization

**Respiratory sensitization** 

Knowledge about health hazard is incomplete.

#### Skin sensitization

Based on available data, the classification criteria are not met.

Sensitization study (75%) Result: Non-sensitizing. Species: Human Organ: Skin.

#### Germ cell mutagenicity

Knowledge about mutagenicity is incomplete.

#### Mutagenicity

Ames test (Salmonella typhimurium) Result: Negative. Chromosome aberration: Chinese hamster ovary cells. Result: Negative. In vivo (Mouse) micronucleus test Result: Negative.

#### Carcinogenicity

Knowledge about carcinogenicity is incomplete.

### IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Not listed.

### US. National Toxicology Program (NTP) Report on Carcinogens

Not listed. Reproductive toxicity

Based on available data, the classification criteria are not met.

#### Reproductivity

250 - 1000 mg/kg Gestational study Result: No evidence of developmental toxicity or malformations. Maternal and fetal weights decreased. Species: Rat

Specific target organ toxicity - Knowledge about health hazard is incomplete.

single exposure

**Specific target organ toxicity -** Knowledge about health hazard is incomplete. **repeated exposure** 

Aspiration hazard

Knowledge about health hazard is incomplete.

### 12. Ecological information

12. Leological informatio				
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.			
Product	Species Test Results			
1,3-Propanediol (CAS 504-6	3-2)			
Aquatic				
Crustacea	EC50	Water flea (Daphnia magna)	6430 - 8555 mg/l, 48 hours	
Persistence and degradability	No data is available on the degradability of this substance.			
Bioaccumulative potential	No data available.			
Mobility in soil	No data available.			
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.			
13. Disposal consideration	ons			
Disposal instructions	Dispose in accordance with all applicable regulations. Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria			

for hazardous waste.

Local disposal regulations Dispose in accordance with all applicable regulations. Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the waste disposal company. Waste from residues / unused Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. 14. Transport information DOT Not regulated as dangerous goods.
