# **SAFETY DATA SHEET**

### 1. Identification

Product identifier Risedronate Sodium

Other means of identification

 Catalog number
 1604610

 CAS number
 329003-65-8

**Synonyms** Risedronate sodium hemi-pentahydrate

Chemical name Phosphonic acid, p,p'-[1-hydroxy-2-(3-pyridinyl)ethylidene]bis-, sodium salt, hydrate (2:2.5)

Recommended use Specified quality tests and assay use only.

**Recommended restrictions** Not for use as a drug. Not for administration to humans or animals.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Company name U. S. Pharmacopeia
Address 12601 Twinbrook Parkway

Rockville MD 20852-1790 United States

**Telephone** RS Technical Services 301-816-8129

Website www.usp.org
E-mail RSTECH@usp.org

Emergency phone number CHEMTREC within US & 1-800-424-9300

Canada

CHEMTREC outside US & +1 703-527-3887

Canada

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Acute toxicity, oral Category 4

Serious eye damage/eye irritation Category 2A Reproductive toxicity Category 2

Specific target organ toxicity, single exposure Category 1 (bone)

Environmental hazards Not classified.

OSHA defined hazards Not classified.

Label elements

Signal word Danger

**Hazard statement** Harmful if swallowed. Causes serious eye irritation. Suspected of damaging fertility or the unborn

child. Causes damage to organs (bone).

**Precautionary statement** 

**Prevention** Obtain special instructions before use. Do not handle until all safety precautions have been read

and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash thoroughly after

handling. Wear protective gloves/protective clothing/eye protection/face protection.

Response If swallowed: Call a poison center/doctor if you feel unwell. Rinse mouth. If in eyes: Rinse

cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. If exposed: Call a poison

center/doctor.

Storage Store locked up.

Material name: Risedronate Sodium

**Disposal** 

Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)

None known.

Supplemental information

Potent pharmacologically active material.

### 3. Composition/information on ingredients

#### Substance

Chemical name	Common name and synonyms	CAS number	%
Risedronate Sodium	Risedronate sodium hemi-pentahydrate	329003-65-8	100

#### 4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Wash off with soap and water. Get medical attention if irritation develops and persists. Skin contact

Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if Eye contact

present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

Ingestion Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

Get medical advice/attention if you feel unwell. Potent pharmacologically active material. Occupational exposure to small amounts may cause

physiological effects.

Most important

symptoms/effects, acute and delayed

Indication of immediate

medical attention and special treatment needed

Treat symptomatically. Treatment of bisphosphonate overdose may include the following: Immediately after ingestion, give milk or antacids to prevent absorption. Do not induce vomiting, If necessary, administer activated charcoal as a slurry; treat esophagitis with omeprazole. For hypocalcemia, administer intravenous calcium salts, calcium gluconate or calcium chloride. More rapid administration may be necessary in patients with dysrhythmias. Monitor vital signs. Monitor ECG continuously. Monitor for signs and symptoms of upper gastrointestinal ulceration or hemorrhage which has occurred with some bisphosphonates. Dialysis is not generally considered

effective.

Remove from exposure. Remove contaminated clothing. For treatment advice, seek guidance from an occupational health physician or other licensed health-care provider familiar with workplace chemical exposures. In the United States, the national poison control center phone number is 1-800-222-1222. If person is not breathing, give artificial respiration. If breathing is difficult, give oxygen if available. Persons developing serious hypersensitivity (anaphylactic) reactions must

receive immediate medical attention.

## 5. Fire-fighting measures

Water. Foam. Dry chemical or CO2. Use fire-extinguishing media appropriate for surrounding Suitable extinguishing media

materials.

Unsuitable extinguishing

General information

media

None known.

Specific hazards arising from

the chemical

No unusual fire or explosion hazards noted.

Special protective equipment

and precautions for firefighters

Wear suitable protective equipment.

Fire fighting

equipment/instructions

Specific methods

Use water spray to cool unopened containers. As with all fires, evacuate personnel to a safe area.

Firefighters should use self-contained breathing equipment and protective clothing. Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Wear appropriate personal protective equipment. Avoid inhalation of dust from the spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Avoid the generation of dusts during clean-up. Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.

**Environmental precautions** Avoid discharge into drains, water courses or onto the ground.

Material name: Risedronate Sodium

USP SDS US

### 7. Handling and storage

**Precautions for safe handling** As a general rule, when handling

As a general rule, when handling USP Reference Standards, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material. Clean equipment and work surfaces with suitable detergent or solvent after use. After removing gloves, wash hands and other exposed skin thoroughly. Select and use containment devices and personal protective equipment based on a risk assessment of material potency and exposure potential.

Conditions for safe storage, including any incompatibilities

Store in tight container as defined in the USP-NF. This material should be handled and stored per label instructions to ensure product integrity.

# 8. Exposure controls/personal protection

#### Occupational exposure limits

**Exposure limit values** 

Industrial Use

MaterialTypeValueRisedronate Sodium (CAS 329003-65-8)TWA 0.01 mg/m3

**Biological limit values** 

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

No open handling. For laboratory operations, use approved ventilation or containment system (biological safety cabinet, ventilated balance enclosure, glovebox). Control exposures to below the occupational exposure level (if available). Select and use containment devices and personal protective equipment based on a risk assessment of exposure potential. Cover all containers for solutions and slurries while being transferred.

## Individual protection measures, such as personal protective equipment

**Eye/face protection** Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary.

Base the choice of protection on the job activity and potential for contact with eyes or face. An

emergency eye wash station should be available.

Skin protection

Hand protection Consider double gloves. Wear nitrile or other impervious gloves if skin contact is possible. When

the material is dissolved or suspended in an organic solvent, wear gloves that provide protection

against the solvent.

Other Train employees in proper gowning and degowning practices. Wear disposable lab coat,

disposable sleeve covers and two pair of gloves as appropriate for the task. Base the choice of skin protection on the job activity, potential for skin contact and solvents and reagents in use. Do

not wear protective garments in common areas (e.g., cafeterias) or out-of-doors.

**Respiratory protection** Use a powered air-purifying respirator (PAPR) with HEPA filters, disposable outerware and head

cover for spill cleanup. Choose respiratory protection appropriate to the task and the level of

existing engineering controls.

**Thermal hazards** Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Pharmacological effects may be seen with occupational exposure. Handling practices in this SDS are recommendations for laboratory use of reference standards. Procedures for any other uses or

quantities should be determined after an appropriate assessment.

### 9. Physical and chemical properties

Appearance Appearance descriptions are general information and not specific to any USP lot.

Physical state Solid.

Form Crystalline powder.

Color White.

Odor Odorless.

Odor threshold Not available.
pH Not available.

Melting point/freezing point 428 °F (220 °C) (degrades)

Initial boiling point and boiling

range

Not available.

Flash point Not available.

Evaporation rate Not available.

Flammability (solid, gas) Not available.

USP SDS US

Upper/lower flammability or explosive limits

Flammability limit - lower

Solubility(ies)

Soluble. Solubility (water)

Solubility (other) Common organic solvents: Insoluble.

**Auto-ignition temperature** Not available. Not available. **Decomposition temperature** Not available. **Viscosity** 

Other information

**Chemical family** Bisphosphonate.

C7H10NO7P2Na . 2.5H2O Molecular formula

350.13 Molecular weight

4.15 Solution: 1%. pH in aqueous solution

10. Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

Material is stable under normal conditions. **Chemical stability** 

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid Contact with incompatible materials.

Strong oxidizing agents. Incompatible materials

**Hazardous decomposition** 

products

Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions. NOx. POx. NaOx.

### 11. Toxicological information

Information on likely routes of exposure

Inhalation Knowledge about health hazard is incomplete. Skin contact Knowledge about health hazard is incomplete.

Eye contact Causes serious eye irritation.

Ingestion Harmful if swallowed.

Symptoms related to the

physical, chemical, and

toxicological characteristics Bisphosphonates: Nausea. Vomiting. Abdominal pain. Flu-like symptoms. Fever. Chills. Headache. Fatigue. Sleepiness. Burning, prickling, itching, or tingling of skin. Skin rash. Vision

problems. Bone, joint, or muscle pain. Seizures.

Information on toxicological effects

Harmful if swallowed. **Acute toxicity** 

**Product Species Test Results** 

Risedronate Sodium (CAS 329003-65-8)

Oral

LD50 Rat 1700 mg/kg

1377 mg/kg

Skin corrosion/irritation Based on available data, the classification criteria are not met.

Serious eve damage/eve Causes serious eye irritation.

irritation

Material name: Risedronate Sodium

1604610 Version #: 03 Revision date: 10-02-2019 Issue date: 07-01-2010

#### Local effects

500 mg Irritancy test Result: Irritant. Species: Rabbit Organ: Skin Severity: Minimal. 7.7 mg Irritancy test Result: Irritant. Species: Rabbit Organ: Eye Severity: Slight.

#### Respiratory or skin sensitization

**Respiratory sensitization** Knowledge about health hazard is incomplete.

**Skin sensitization** Based on available data, the classification criteria are not met.

Antigenicity study Result: Non-sensitizing Species: Guinea pig

**Germ cell mutagenicity** Knowledge about mutagenicity is incomplete.

**Carcinogenicity** Based on available data, the classification criteria are not met.

24 mg/kg Carcinogenicity study

Result: No significant drug-induced tumors occurred when

administered orally. Species: Rat

Test Duration: 104 weeks 32 mg/kg Carcinogenicity study

Result: No significant drug-induced tumors occurred when

administered orally. Species: Mouse Test Duration: 80 weeks

#### IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

### OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

### US. National Toxicology Program (NTP) Report on Carcinogens

Not listed

#### Reproductive toxicity

Suspected of damaging fertility or the unborn child. Bisphosphonates are incorporated into the bone matrix and are gradually released over periods of weeks to years. Although there are no data on fetal risk in humans, bisphosphonates are associated with fetal harm in animals and animal data suggest that uptake of bisphosphonates into fetal bone is greater than into maternal bone.

### Reproductivity

10 mg/kg/day Reproductivity study

Result: No significant fetal bone defects occurred when administered orally, but miscarriage and premature delivery

did occur. Species: Rabbit

16 mg/kg/day Reproductivity study

Result: Testicular atrophy occurred in males.

Species: Rat

3.2 - 16 mg/kg/day Reproductivity study

Result: Fetal cleft palate and maternal adverse effects and mortality occurred at 3.2 mg/kg/day; incomplete fetal bone formation occurred at 7.1 mg/kg/day; inhibited ovulation, decreased neonate survival, and fetal bone abnormalities

occurred at 16 mg/kg/day.

Species: Rat

Specific target organ toxicity - single exposure

Causes damage to organs (bone).

Specific target organ toxicity -

repeated exposure

Knowledge about health hazard is incomplete.

Aspiration hazard Based on available data, the classification criteria are not met.

Further information Potent pharmacologically active material. Occupational exposure to small amounts may cause

physiological effects.

Material name: Risedronate Sodium

1604610 Version #: 03 Revision date: 10-02-2019 Issue date: 07-01-2010

### 12. Ecological information

**Ecotoxicity**The product is not classified as environmentally hazardous. However, this does not exclude the

possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Persistence and degradability** No data is available on the degradability of this substance.

Bioaccumulative potential No data available.

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

### 13. Disposal considerations

**Disposal instructions**Dispose in accordance with all applicable regulations. Under RCRA, it is the responsibility of the

user of the product to determine, at the time of disposal, whether the product meets RCRA criteria

for hazardous waste.

**Local disposal regulations** Dispose in accordance with all applicable regulations.

Hazardous waste code

The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Empty containers or liners may retain some product residues. This material and its container must

be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is

emptied.

### 14. Transport information

DOT

Not regulated as dangerous goods.

**IATA** 

Not regulated as dangerous goods.

Transport in bulk according to

Annex II of MARPOL 73/78 and

the IBC Code

**General information** It is the shipper's responsibility to determine the correct transport classification at the time of

shipment.

Not applicable.

### 15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication

Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

SARA 302 Extremely hazardous substance

Not listed.
