SAFETY DATA SHEET

1. Identification

Product identifier	Vinblastine Sulfate		
Other means of identification			
Catalog number	1713004		
CAS number	143-67-9		
Chemical name	Vincaleukoblastine, sulfate ((1:1) (salt)	
Recommended use	Specified quality tests and a	assay use only.	
Recommended restrictions	Not for use as a drug. Not for	or administration to	b humans or animals.
Manufacturer/Importer/Supplier/	Distributor information		
Manufacturer			
Company name	U. S. Pharmacopeia		
Address	12601 Twinbrook Parkway		
	Rockville		
	MD 20852-1790		
	United States		
Telephone	RS Technical Services	301-816-8129	
Website	www.usp.org		
E-mail	RSTECH@usp.org		
Emergency phone number	CHEMTREC within US &	1-800-424-9300	
	Canada CHEMTREC outside US &	+1 703-527-3887	7
	Canada	1703-327-3007	1
2. Hazard(s) identification			
Physical hazards	Not classified.		
Health hazards	Acute toxicity, oral		Category 2
	Serious eye damage/eye irr	itation	Category 1
	Carcinogenicity		Category 2
	Reproductive toxicity		Category 1A
Environmental hazards	Not classified.		
OSHA defined hazards	Not classified.		
Label elements	^ ^	~	
Signal word	Danger		
Hazard statement	Fatal if swallowed. Causes serious eye damage. Suspected of causing cancer. May damage fertility or the unborn child.		
Precautionary statement			
Prevention			handle until all safety precautions have been read ctive clothing/eye protection/face protection. Wash
_			

Response If swallowed: Immediately call a poison center/doctor. Rinse mouth. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If exposed or concerned: Get medical advice/attention. Storage Store locked up. Disposal Dispose of contents/container in accordance with local/regional/national/international regulations. Potent pharmacologically active material.

3. Composition/information on ingredients

Chemical name	Common name and synonyms	CAS number	%	
Vinblastine Sulfate		143-67-9	100	
4. First-aid measures				
Inhalation	If breathing is difficult, remove to fresh air and Call a physician if symptoms develop or persi		fortable for breathing.	
Skin contact	Rinse skin with water/shower. Get medical at clothing separately before reuse.	Rinse skin with water/shower. Get medical attention if irritation develops and persists. Wash clothing separately before reuse.		
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Continue rinsing. Call a physician or poison control center immediately.			
Ingestion	If ingestion of a large amount does occur, cal Do not induce vomiting without advice from p low so that stomach content doesn't get into t substance is ingested. Induce artificial respira one-way valve or other proper respiratory me	oison control center. If vomiting he lungs. Do not use mouth-to- ation with the aid of a pocket ma	occurs, keep head mouth method if	
Most important symptoms/effects, acute and delayed	Bone marrow suppression. Potent pharmacol small amounts may cause physiological effect		ational exposure to	
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and tre overdose may include the following: For eye of minimize inflammation. Administer activated of benzodiazepine intravenously, followed by ph for hypotension, dysrhythmias, respiratory de Evaluate for hypoglycemia, electrolyte disturb manage fluid restriction. For neutropenia, adm filgrastim, sargramostim). Monitor the patient Manage airway. Folinic acid (leucovorin) may	contact, treat with a steroid eye charcoal as a slurry. For seizure enobarbital or propofol if the se pression, and need for endotra- bances, hypoxia. For SIADH, ac ninister hematopoietic colony si carefully, especially for cardiov	ointment or drops to es, administer a eizures recur. Monitor cheal intubation. Iminister saline and timulating factor (e.g. ascular status.	
General information	Remove from exposure. Remove contaminate an occupational health physician or other lice chemical exposures. In the United States, the 1-800-222-1222. If person is not breathing, gi oxygen if available. Persons developing serio receive immediate medical attention.	nsed health-care provider famil e national poison control center ve artificial respiration. If breath	iar with workplace phone number is ning is difficult, give	
5. Fire-fighting measures				
Suitable extinguishing media	Water. Foam. Dry chemical or CO2. Use fire- materials.	extinguishing media appropriate	e for surrounding	
Unsuitable extinguishing	None known.			

Specific hazards arising from the chemical	No unusual fire or explosion hazards noted.
Special protective equipment and precautions for firefighters	Wear suitable protective equipment.
Fire fighting equipment/instructions	Use water spray to cool unopened containers. As with all fires, evacuate personnel to a safe area. Firefighters should use self-contained breathing equipment and protective clothing.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

media

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Wear appropriate personal protective equipment. Avoid inhalation of dust from the spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	For waste disposal, see section 13 of the SDS. Avoid the generation of dusts during clean-up. Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination.

Environmental precautions

Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

As a general rule, when handling USP Reference Standards, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material. Clean equipment and work surfaces with suitable detergent or solvent after use. After removing gloves, wash hands and other exposed skin thoroughly. Select and use containment devices and personal protective equipment based on a risk assessment of material potency and exposure potential.

Conditions for safe storage, including any incompatibilities

Store in tight container as defined in the USP-NF. This material should be handled and stored per label instructions to ensure product integrity.

8. Exposure controls/personal protection

Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Exposure limit values

Industrial Use Material	Туре	Value	
Vinblastine Sulfate (CAS 143-67-9)	STEL	5.64 micrograms/m3	
	TWA	0.47 micrograms/m3	
Biological limit values	No biological exposure limits noted fo	r the ingredient(s).	
Appropriate engineering controls	No open handling. For laboratory operations, use approved ventilation or containment system (biological safety cabinet, ventilated balance enclosure, glovebox). Control exposures to below the occupational exposure level (if available). Select and use containment devices and personal protective equipment based on a risk assessment of exposure potential. Cover all containers for solutions and slurries while being transferred.		
Individual protection measures	s, such as personal protective equipme	ent	
Eye/face protection	Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.		
Skin protection			
Hand protection	Consider double gloves. Wear nitrile or other impervious gloves if skin contact is possible. When the material is dissolved or suspended in an organic solvent, wear gloves that provide protection against the solvent.		
Other	Train employees in proper gowning and degowning practices. Wear disposable lab coat, disposable sleeve covers and two pair of gloves as appropriate for the task. Base the choice of skin protection on the job activity, potential for skin contact and solvents and reagents in use. Do not wear protective garments in common areas (e.g., cafeterias) or out-of-doors.		
Respiratory protection	Use a powered air-purifying respirator (PAPR) with HEPA filters, disposable outerware and head cover for spill cleanup. Choose respiratory protection appropriate to the task and the level of existing engineering controls.		
Thermal hazards	Wear appropriate thermal protective of	lothing, when necessary.	
General hygiene considerations	Pharmacological effects may be seen with occupational exposure. Handling practices in this SDS are recommendations for laboratory use of reference standards. Procedures for any other uses or quantities should be determined after an appropriate assessment.		

9. Physical and chemical properties

-	
Appearance	Appearance descriptions are general information and not specific to any USP lot.
Physical state	Solid.
Form	Powder.
Color	White. Light yellow.
Odor	Odorless.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	543.2 - 545 °F (284 - 285 °C)
Initial boiling point and boiling range	Not available.

Flash	point	Not available.	
Evapo	ration rate	Not available.	
Flamm	ability (solid, gas)	Not available.	
Upper/	lower flammability or exp	osive limits	
Fla (%	ammability limit - lower 。)	Not available.	
Fla (%	ammability limit - upper 。)	Not available.	
Ex	plosive limit - lower (%)	Not available.	
Ex	plosive limit - upper (%)	Not available.	
Vapor	pressure	< 0.0000001 kPa at 25 °C	
Vapor	density	Not available.	
Relativ	/e density	Not available.	
Solubi	lity(ies)		
Sc	olubility (water)	Freely soluble.	
Sc	olubility (other)	Benzene: Insoluble. Ethanol: Very slightly soluble. Ether: Practically insoluble. Methanol: Soluble.	
Auto-i	gnition temperature	Not available.	
Decon	position temperature	Not available.	
Viscos	sity	Not available.	
Other	information		
Ch	nemical family	Vinca alkaloid.	
Mo	olecular formula	C46H58N4O9 . H2SO4	
Μ	olecular weight	909.05 g/mol	
р⊦	l in aqueous solution	3.5 - 5 Solution: 0.15%	
10 6	tability and reactivity		

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents. Strong bases.
Hazardous decomposition products	Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions. NOx. SOx.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Knowledge about health hazard is incomplete.
Skin contact	Knowledge about health hazard is incomplete.
Eye contact	Causes serious eye damage.
Ingestion	Fatal if swallowed.
Symptoms related to the physical, chemical, and toxicological characteristics	Vinca alkaloids: Headache. Gastrointestinal disturbances. Fever. Chills. Cough. Hoarseness. Shortness of breath. Numbness, pain, tingling, or weakness in hands or feet. Lower back or side pain. Joint pain. Bone pain. Painful or difficult urination. Mouth sores. Bleeding or bruising. Pinpoint red spots on skin. Hair loss. Vision problems.

Information on toxicological effects

Acute toxicity

Fatal if swallowed.

Product	Species	Test Results	
Vinblastine Sulfate (CAS 143-67-9)		
Dermal			
LD50	Rabbit	> 1 mg/kg	
Oral			
LD50	Mouse	423 mg/kg	
	Rat	305 mg/kg	
		7 mg/kg	
Skin corrosion/irritation	Based on available data. the	classification criteria are not met.	
Serious eye damage/eye irritation	Causes serious eye damage.		
Local effects Eye irritation Result: Corrosive. Species: Rabbit Skin irritation Result: Slight. Species: Rabbit			
Respiratory or skin sensitization	n		
Respiratory sensitization	Knowledge about health haz	ard is incomplete.	
Skin sensitization	Knowledge about health haz	ard is incomplete.

Specific target organ toxicity - single exposure	Knowledge about health haz	ard is incomplete.	
Specific target organ toxicity - repeated exposure	Knowledge about health haz	ard is incomplete.	
Aspiration hazard	Based on available data, the	classification criteria are not met.	
Further information	Potent pharmacologically active material. Occupational exposure to small amounts may cause physiological effects.		
12. Ecological information			
Ecotoxicity		as environmentally hazardous. However, this does not exclude the	

Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability	No data is available on the degradability of this product.
Bioaccumulative potential	No data available.
Mobility in soil	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions	Dispose in accordance with all applicable regulations. Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information
